Notice of Intent To Rule on Request To Release Airport Land at Brown Field Municipal Airport, San Diego, CA

AGENCY: Federal Aviation Administration, Department of Transportation.

ACTION: Notice of request to release airport land.

SUMMARY: The Federal Aviation Administration (FAA) proposed to rule and invites public comment on the release of approximately 1.5 acres of airport property at Brown Field Municipal Airport, San Diego, California, from all restrictions of the surplus property agreement since the parcel of land is not needed for airport purposes. Reuse of the land for State of California roadway improvements to State Route 905 represents a compatible land use. Sale of the property to the State at the appraised fair market values will be reinvested in airport improvements. The property is not needed for airport purposes and reinvestment of the sale proceeds will benefit the airport and the interests of civil aviation.

Brief Overview of the Request

The City of San Diego, California requested a release from surplus property agreement obligations for approximately 1.5 acres of airport land. The property is separated from the airport and located south of Otay Mesa Road. The land is presently unused, unimproved, and does not generate any income. Due to its location and uneven topography, the property cannot be used for airport purposes nor has it generated revenue for the airport. The release will allow the land to be sold to the State of California to allow the State to make roadway improvements to State Route 905, which runs along the southern boundary of Brown Field and serves as the public access road to the airport. The property will be sold at the appraised market value and the sale proceeds will be reinvested in airport improvement and development. Reuse of the property as a roadway will be compatible with the airport and the reuse of the sale proceeds will benefit the airport, thereby serving the interests of civil aviation.

Brief Overview of the Request

The City of Calexico requested a release from grant assurance obligations for approximately 13.44 acres of airport land consisting of a parcel of vacant, undeveloped land on the south side of the airport. The parcel is separated from the airfield by a public road and is located between Anza Road and the Mexican border. Since the property is not contiguous to the airfield, the property is not needed for airport purposes and cannot be used for aeronautical activities. Following the sale, the property's redevelopment for non-aeronautical purposes will comply with local zoning and compatible land-use requirements. The parcel will be sold at fair market value based on the land's appraised value. The proceeds from the sale of the land will be used to acquire additional land adjacent to the airfield, which is needed for airport development, including a new terminal, an aircraft ramp, and auto parking. The land disposal and acquisition will provide a direct benefit to the airport and civil aviation.
