**SUPPLEMENTARY INFORMATION:** Chapter 19 of the North American Free-Trade Agreement ("Agreement") establishes a mechanism to replace domestic judicial review of final determinations in antidumping and countervailing duty cases involving imports from a NAFTA country with review by independent binational panels. When a Request for Panel Review is filed, a panel is established to act in place of national courts to review expeditiously the final determination to determine whether it conforms with the antidumping or countervailing duty law of the country that made the determination.

Under Article 1904 of the Agreement, which came into force on January 1, 1994, the Government of the United States, the Government of Canada and the Government of Mexico established *Rules of Procedure for Article 1904 Binational Panel Reviews* ("Rules"). These Rules were published in the **Federal Register** on February 23, 1994 (59 FR 8686). The panel review in this matter has been conducted in accordance with these Rules.

Dated: January 21, 2011.

#### **I. Abstract**

This request is for an extension of a currently approved information collection. The National Oceanic and Atmospheric Administration (NOAA) allows scientists to implant archival tags in, or affix archival tags to, selected Atlantic Highly Migratory Species (tunas, sharks, swordfish, and billfish). Archival tags collect location, temperature, and water depth data that is useful for scientists researching the movements and behavior of individual fish. It is often necessary to retrieve the tags in order to obtain the collected data; therefore, persons catching tagged fish are exempted from other normally applicable regulations (*i.e.*, immediate release of the fish, minimum size, prohibited species, retention limits). These participants must notify NOAA, return the archival tag or make it available to NOAA personnel, and provide information about the location and method of capture if they harvest a fish that has an archival tag. The information obtained is used by NOAA in the formation of international and
