

Additionally, Congress recognized that State (including Tribal and Territorial) P&A systems are critical to achieving the goals and objectives of the TBI Act. Thus, section 1253 includes language authorizing the Secretary, acting through the Administrator of HRSA, to make grants to existing State P&A systems for the purposes of strengthening P&A service delivery to individuals with TBI and their families. The planning and assessment of State TBI P&A systems, responsiveness to TBI issues, and outreach strategies to the brain injury community are critical to ensure that P&A services will be delivered appropriately for individuals with TBI and their families.

The purpose of these grants, therefore, is to enable State P&A systems to develop a plan to address the needs of individuals with TBI and their families. These plans are expected to identify the resources and operational structure needed to provide P&A services to individuals with TBI, identify information needs and develop the ability to provide information and advocacy training for individuals with TBI and their families, present a mechanism for sustaining TBI P&A activities in their States, and provide an operational structure for implementing the plan and providing P&A services. Thus, P&A grantees may work with individuals with TBI, their families, State TBI grantees, and other stakeholders to: (1) Assess statewide needs and capacity; (2) determine the best approach for identifying individuals and families within and outside the State service system; (3) develop and provide P&A-related education and training materials; and, (4) develop an action plan that provides a mechanism for serving individuals with TBI and their families.

Eligibility: Eligible for funding are: State P&A systems established under part C of the Developmental Disabilities Assistance and Bill of Rights Act (42 U.S.C. 6042 *et seq.*) in the several States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the United States Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands, and American Indian Consortia established under part C of the Developmental Disabilities Assistance Bill of Rights Act (42 U.S.C. 6042 *et seq.*).

Funding Level/Project Period: Projects will be approved for up to three years. States are eligible for \$50,000 each. Territories and American Indian Consortia are eligible for \$20,000 each. MCHB expects to award 28 P&A grants to States, and 5 P&A grants to U.S.

Territories and American Indian Consortia. The initial budget period for TBI P&A Grants is expected to be 12 months, with any subsequent budget period being 12 months. Continuation of any TBI project from one budget period to the next is subject to satisfactory performance, program priorities, and availability of funds.

Review Criteria: An objective review panel will evaluate applications for P&A grants. Based on the quality of the responses, an application may receive up to 100 points on the following review criteria:

1. A plan to enable the P&A system to provide services for individuals with TBI and their families (25 points).

- The proposed services.
- The balance of individual TBI cases and systemic work.
- Recognition of the unique needs of the area.

2. A comprehensive approach to collaboration, partnership and outreach (25 points).

- Established relationships with the brain injury community.
- The evidence and breadth of collaboration demonstrated in the narrative and letters of support.
- Participation with the State TBI State grant project if one exists.

3. A demonstrated knowledge of the needs of individuals with TBI and their families (25 points).

- Financial and human resources have been committed by the State P&A towards improving the services for individuals for TBI and their families.
- The roles, responsibilities and skills of the project staff are sufficient to meet the goals and objectives of the project within the proposed time period.
- The project management plan is reasonable and will build State P&A capacity.

4. Project Evaluation (25 points).

- The methodology that will be used to achieve the goals and objectives of the project.
- The strength of the project evaluation plan.

Additional criteria may be used to review and rank applications for this competition. Any such criteria will be identified in the program guidance included in the application kit. Applicants should pay strict attention to addressing these criteria, as they are the basis upon which their applications will be judged.

Paperwork Reduction Act

OMB approval for any data collection in connection with these grants will be sought, as required under the Paperwork Reduction Act of 1995.

Executive Order 12372

This program has been determined to be a program which is subject to the provisions of Executive Order 12372 concerning intergovernmental review of Federal programs by appropriate health planning agencies, as implemented by 45 CFR part 100. Executive Order 12372 allows States the option of setting up a system for reviewing applications from within their States for assistance under certain Federal programs. The application packages to be made available under this notice will contain a listing of States that have chosen to set up such a review system and will provide a single point of contact (SPOC) in the States for review. Applicants (other than federally-recognized Indian tribal governments) should contact their State SPOCS as early as possible to alert them to the prospective applications and receive any necessary instructions on the State process. For proposed projects serving more than one State, the applicant is advised to contact the SPOC of each affected State. The due date for State process recommendations is 60 days after the application deadline for new and competing awards. The granting agency does not guarantee to "accommodate or explain" for State process recommendations it receives after that date. (See Part 148, Intergovernmental Review of PHS Programs under Executive Order 12372 and 45 CFR part 100 for a description of the review process and requirements).

Dated: April 12, 2002.

National Institutes of Health

Submission for OMB Review; Comment Request; A Follow-Up Survey of National Cancer Institute Science Enrichment Program Students

SUMMARY: Under the provisions of Section 3507(a)(1)(D) of the Paperwork Reduction Act of 1995, the National Cancer Institute (NCI), the National Institutes of Health (NIH) has submitted to the Office of Management and Budget (OMB) a request for review and approval of the information collection listed below. This proposed information collection was previously published in the **Federal Register** on April 9, 2001, pages 18488-18489 and allowed 60 days for public comment. No public

comments were received. The purpose of this notice is to allow an additional 30 days for public comment. The National Institutes of Health may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number.

Proposed Collection: Title: A Follow-up Survey of National Cancer Institute Science Enrichment Program Students. Type of Information Collection Request: New. Need and Use of Information Collection: This survey will investigate the long-term effects of the National Cancer Institute's Science Enrichment Program. The primary objective of the survey is to determine if past NCI SEP student participants are pursuing science education and science careers. The findings will provide information regarding the effectiveness of the program and will inform decisions about continuing and expanding the program. Frequency of Response: One time. Affected Public: Individuals. Type of Respondents: Young adults (18–23 years old). The annual reporting burden is as follows: Estimated Number of Respondents: 448; Estimated Number of Responses per Respondent: 1; Average Burden Hours Per Response: .2500; and Estimated Total Annual Burden Hours Requested: 112. The annualized cost to respondent is estimated at \$4,480. There are no Capital Costs, Operating Costs and/or Maintenance Costs to report.

Request for Comments: Written comments and/or suggestions from the public and affected agencies are invited on one or more of the following points: (1) Whether the proposed collection of information is necessary for the proper performance of the function of the agency, including whether the information will have practical utility; (2) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and (4) Ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Direct Comments to OMB: Written comments and/or suggestions regarding the item(s) contained in this notice, especially regarding the estimated public burden and associated response time, should be directed to the Office of Management and Budget, Office of

Regulatory Affairs, New Executive Office Building, Room 10235, Washington, DC 20530, Attention: Desk Officer for NIH. To request more information on the proposed project or to obtain a copy of the data collection plans and instruments, contact Mr. Frank Jackson, Office of Special Populations Research, National Cancer Institute, National Institutes of Health, Executive Plaza South, Room 320, 6120 Executive Boulevard, Rockville, MD 20852, or call non-toll-free number (301) 496–8589, or E-mail your request, including your address to fj12i@nih.gov

Comments Due Date: Comments regarding this information collection are best assured of having their full effect if received within 30 days of the date of this publication.

Dated: May 6, 2002.
