Certain Softwood Lumber Products From Canada: Continuation of Antidumping and Countervailing Duty Orders

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: As a result of the determinations by the U.S. Department of Commerce (Commerce) and the U.S. International Trade Commission (ITC) that revocation of the antidumping duty (AD) and countervailing duty (CVD) orders on certain softwood lumber products (softwood lumber) from Canada would likely lead to the continuation or recurrence of dumping and countervailable subsidies, and material injury to an industry in the United States, Commerce is publishing a notice of continuation of these AD and CVD orders.

DATES: Applicable December 28, 2023.

FOR FURTHER INFORMATION CONTACT: Zachary Shaykin, AD/CVD Operations, Office IV, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–2638.

SUPPLEMENTARY INFORMATION:

Background

On January 3, 2018, Commerce published in the *Federal Register* the AD and CVD orders on softwood lumber from Canada.¹ On December 1, 2022, the ITC instituted,² and Commerce initiated,³ the first sunset review of the *Orders*, pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act). As a result of its reviews, Commerce determined that revocation of the *Orders*, would likely lead to the continuation or recurrence of dumping and countervailable subsidies, and therefore, notified the ITC of the magnitude of the margins of dumping

and subsidy rates likely to prevail should the *Orders* be revoked.⁴

On December 28, 2023, the ITC published its determination, pursuant to sections 751(c) and 752(a) of the Act, that revocation of the *Orders* would likely lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.⁵

Scope of the Orders

The merchandise covered by the *Orders* is softwood lumber, siding, flooring, and certain other coniferous wood (softwood lumber products). The scope includes:

- Coniferous wood, sawn, or chipped lengthwise, sliced or peeled, whether or not planed, whether or not sanded, or whether or not finger-jointed, of an actual thickness exceeding six millimeters.

- Coniferous wood siding, flooring, and other coniferous wood (other than moldings and dowel rods), including strips and friezes for parquet flooring, that is continuously shaped (including, but not limited to, tongued, grooved, rebated, chamfered, V-jointed, beaded, molded, rounded) along any of its edges, ends, or faces, whether or not planed, whether or not sanded, or whether or not end-jointed.

- Coniferous drilled and notched lumber and angle cut lumber.

- Coniferous lumber stacked on edge and fastened together with nails, whether or not with plywood sheathing.

- Components or parts of semi-finished or unassembled finished products made from subject merchandise that would otherwise meet the definition of the scope above.

Finished products are not covered by the scope of these *Orders*. For the purposes of this scope, finished products contain, or are comprised of, subject merchandise and have undergone sufficient processing such that they can no longer be considered intermediate products, and such products can be readily differentiated from merchandise subject to these *Orders* at the time of importation. Such differentiation may, for example, be shown through marks of special adaptation as a particular product. The following products are illustrative of the

type of merchandise that is considered “finished” for the purpose of this scope: I-joists; assembled pallets; cutting boards; assembled picture frames; garage doors.

The following items are excluded from the scope of these *Orders*:

- Softwood lumber products certified by the Atlantic Lumber Board as being first produced in the Provinces of Newfoundland and Labrador, Nova Scotia, or Prince Edward Island from logs harvested in Newfoundland and Labrador, Nova Scotia, or Prince Edward Island.

- U.S.-origin lumber shipped to Canada for processing and imported into the United States if the processing occurring in Canada is limited to one or more of the following: (1) kiln drying; (2) planing to create smooth-to-size board; or (3) sanding.

- Box-spring frame kits if they contain the following wooden pieces—two side rails, two end (or top) rails and varying numbers of slats. The side rails and the end rails must be radius-cut at both ends. The kits must be individually packaged and must contain the exact number of wooden components needed to make a particular box-spring frame, with no further processing required. None of the components exceeds 1” in actual thickness or 83” in length.

- Radius-cut box-spring-frame components, not exceeding 1” in actual thickness or 83” in length, ready for assembly without further processing. The radius cuts must be present on both ends of the boards and must be substantially cut so as to completely round one corner.

Softwood lumber product imports are generally entered under Chapter 44 of the Harmonized Tariff Schedule of the United States (HTSUS). This chapter of the HTSUS covers “Wood and articles of wood.” Softwood lumber products that are subject to these *Orders* are currently classifiable under the following ten-digit HTSUS subheadings in Chapter 44: 4406.91.0000; 4407.10.01.01; 4407.10.01.02; 4407.10.01.15; 4407.10.01.16; 4407.10.01.17; 4407.10.01.18; 4407.10.01.19; 4407.10.01.20; 4407.10.01.42; 4407.10.01.43; 4407.10.01.44; 4407.10.01.45; 4407.10.01.46; 4407.10.01.47; 4407.10.01.48; 4407.10.01.49; 4407.10.01.52; 4407.10.01.53; 4407.10.01.54; 4407.10.01.55; 4407.10.01.56; 4407.10.01.57; 4407.10.01.58; 4407.10.01.59; 4407.10.01.64; 4407.10.01.65; 4407.10.01.66; 4407.10.01.67; 4407.10.01.68; 4407.10.01.69; 4407.10.01.74; 4407.10.01.75; 4407.10.01.76; 4407.10.01.77;
