RIN 0694-AF57

#### Addition of Certain Persons to the Entity List; and Implementation of Entity List Annual Review Changes

**AGENCY:** Bureau of Industry and Security, Commerce.

**ACTION:** Final rule.

**SUMMARY:** This rule amends the Export Administration Regulations (EAR) by adding to the Entity List two persons who have been determined by the U.S. Government to be acting contrary to the national security or foreign policy interests of the United States. These persons will be listed on the Entity List under the country of France.

This rule also amends the Entity List on the basis of the annual review of the Entity List conducted by the End-User Review Committee (ERC). The ERC conducts the annual review to determine if any entries on the Entity List should be removed or modified. This rule reflects the results of the ERC's annual review of fifteen countries, *i.e.* Armenia, Belarus, Egypt, Germany, Iran, Ireland, Israel, Kuwait, Lebanon, Norway, Russia, South Korea, Syria, the United Arab Emirates (U.A.E.), and the United Kingdom (U.K.). As a result of these reviews, this rule makes amendments to the Entity List including: The removal of three entries (one each in Germany, South Korea, and the United Arab Emirates (U.A.E.)); the addition of four entities (one each in Canada, Egypt, France and the United Kingdom); and the amendments of seventeen entries to provide alternate addresses, alternate spellings of names, and/or aliases for listed persons. The amended entries are in Armenia,

Germany, Iran, Lebanon, Syria, and the U.A.E. sections of the Entity List.

The Entity List provides notice to the public that certain exports, reexports, and transfers (in-country) to entities identified on the Entity List require a license from the Bureau of Industry and Security (BIS) and that availability of license exceptions in such transactions is limited.

**DATES:** *Effective Date:* This rule is effective April 25, 2012.

**SUPPLEMENTARY INFORMATION:**

#### Background

The Entity List (Supplement No. 4 to Part 744) provides notice to the public that certain exports, reexports, and transfers (in-country) to entities identified on the Entity List require a license from the Bureau of Industry and Security and that the availability of license exceptions in such transactions is limited. Entities are placed on the Entity List on the basis of certain sections of part 744 (Control Policy: End-User and End-Use Based) of the EAR.

The ERC, composed of representatives of the Departments of Commerce (Chair), State, Defense, Energy and, when appropriate, the Treasury, makes all decisions regarding additions to, removals from, or other modifications to the Entity List. The ERC makes all decisions to add an entry to the Entity List by majority vote and all decisions to remove or modify an entry by unanimous vote.

#### ERC Entity List Decisions

##### *Additions to the Entity List*

This rule implements the decision of the ERC to add two persons, located in France, to the Entity List on the basis of Section 744.11 (license requirements that apply to entities acting contrary to the national security or foreign policy interests of the United States) of the EAR. The ERC reviewed Section 744.11(b) (Criteria for revising the Entity List) in making the determination to add the two persons located in France to the Entity List. Under that paragraph, persons for which there is reasonable cause to believe, based on specific and articulable facts, that the persons have been involved, are involved, or pose a significant risk of being or becoming involved in, activities that are contrary

to the national security or foreign policy interests of the United States and those acting on behalf of such persons may be added to the Entity List pursuant to Section 744.11. Paragraphs (b)(1)–(b)(5) of Section 744.11 include an illustrative list of activities that could be contrary to the national security or foreign policy interests of the United States.

The ERC has reasonable cause to believe that the two persons in France (one company and one individual, an employee of the company) have been involved, are involved, or pose a significant risk of being or becoming involved in, activities that could be contrary to the national security or foreign policy interests of the United States. Specifically, BIS's investigation of the company, Toulouse Air Spares SAS, indicates direct physical and corporate nexus with Aerotechnic France SAS, an Entity List person (76 FR 37632, 6/28/2011). Therefore, pursuant to Section 744.11(b)(5) of the EAR, the ERC determined that the company Toulouse Air Spares SAS and Laurence Mattiucci, the company's president, are engaging in conduct that poses a risk of violating the EAR and that such conduct raises sufficient concern that prior review of exports, reexports or transfers (in-country) of items subject to the EAR involving either of the two persons, and the possible imposition of license conditions or license denials, will enhance BIS's ability to prevent violations of the EAR.

For both of the persons added to the Entity List, the ERC specified a license requirement for all items subject to the EAR and established a license application review policy of a presumption of denial. The license requirement applies to any transaction in which items are to be exported, reexported, or transferred (in-country) to such persons or in which such persons act as purchaser, intermediate consignee, ultimate consignee, or end-user. In addition, no license exceptions are available for exports, reexports, or transfers (in-country) to those persons being added to the Entity List.

This final rule adds the following two persons to the Entity List:

#### France

(1) *Toulouse Air Spares SAS*, 8 Rue de la Bruyere, 31120 Pinsaguel, Toulouse, France; and

(2) *Laurence Mattiucci*, 8 Rue de la Bruyere, 31120 Pinsaguel, Toulouse, France.

#### *Annual Review of the Entity List*

This rule also amends the Entity List on the basis of the annual review of the

Entity List conducted by the ERC, in accordance with the procedures outlined in Supplement No. 5 to part 744 (Procedures for End-User Review Committee Entity List Decisions). The changes from the annual review of the Entity List that are approved by the ERC are implemented in stages as the ERC completes its review of entities listed under different destinations on the Entity List. This rule implements the results of the annual review for entities listed under Armenia, Germany, Iran, Lebanon, South Korea, Syria, and the U.A.E.

#### A. Removals From the Entity List Based on the Annual Review

This rule removes two entities from the Entity List, consisting of one entity from Germany and one entity from South Korea, on the basis of the annual review of the Entity List. Specifically, this rule implements the decision of the ERC to remove the following two entities:

##### Germany

(1) *Akbar Ashraf Vaghefi*, Koburgerstr 10, D-10825, Berlin, Germany.

##### South Korea

(1) *WASTEC, Inc., a.k.a., With Advanced Systemic Technology*, Room 3303, 3304, Na-Dong Chungang Circulation Complex, #1258, Gurobon-Dong, Guro-gu, Seoul, South Korea.

The removal of the above-referenced two entities from the Entity List eliminates the existing license requirements in Supplement No. 4 to part 744 for exports, reexports, and transfers (in-country) to the two entities. However, the removal of these two entities from the Entity List does not relieve persons of other obligations under part 744 of the EAR or under other parts of the EAR. Neither the removal of an entity from the Entity List nor the removal of Entity List-based license requirements relieves persons of their obligations under General Prohibition 5 in section 736.2(b)(5) of the EAR which provides that, "you may not, without a license, knowingly export or reexport any item subject to the EAR to an end-user or end-use that is prohibited by part 744 of the EAR." Additionally these removals do not relieve persons of their obligation to apply for export, reexport or in-country transfer licenses required by other provisions of the EAR. BIS strongly urges the use of Supplement No. 3 to part 732 of the EAR, "BIS's 'Know Your Customer' Guidance and Red Flags," when persons are involved in transactions that are subject to the EAR.

This rule, pursuant to the ERC's annual review, also removes a third entity from the Entity List, consisting of one entry from the U.A.E. However, this person's name will be added as an alias for another person listed on the Entity List, also under the U.A.E. Therefore, this removal does not remove license requirements for this person. Instead, the addition of the entry as an alias to another listed entity will more clearly identify the relationship between these two persons listed on the Entity List. Specifically, this rule consolidates the entry for "S. Basheer" (*i.e.*, removes and adds to another entry on the Entity List) as a new alias for the revised "Shaji Muhammed Basheer" entry, as follows:

##### United Arab Emirates

(1) *Shaji Muhammed Basheer*, a.k.a., the following alias:

—S. Basheer.

Shop No. 3 & 4, Sharafia Ahmed Ali Bldg., Al Nakheel St., Deira, P.O. Box 171978, Dubai, U.A.E.

#### B. Modifications to the Entity List Based on the Annual Review

On the basis of decisions made by the ERC during the annual review, in addition to modifying the U.A.E. entry as described above, this rule amends sixteen entries currently on the Entity List, consisting of one entry under Armenia, three entries under Germany, ten entries under Iran, one entry under Lebanon, and one entry under Syria, to provide alternate addresses, alternate spellings for the names of the listed persons, and/or aliases, as follows:

##### Armenia

#### C. Additions to the Entity List on the Basis of the Annual Review and Section 744.11

Finally, on the basis of decisions made by the ERC during the annual review, this rule adds four persons to the Entity List, consisting of one person in Canada, one person in Egypt, one person in France, and one person in the U.K. The decision to add these four persons was made during the annual review and is based on Section 744.11 of the EAR. Similar to the process outlined above for the other Section 744.11 additions described in this rule, the ERC as part of the annual review process reviewed Section 744.11(b) in making the determination to add these four persons.

These four persons are believed to have been involved in activities described under paragraphs (b)(1) and (b)(2) of Section 744.11. Specifically, the two persons located in Canada and Egypt are being added because of their affiliation with EKT Electronics, a person currently listed on the Entity List under Lebanon and Syria. BIS first included EKT Electronics as a listed

person under General Order No. 3, which was first published on June 5, 2006, and subsequently amended on September 6, 2006. General Order No. 3 listed persons concerning whom the U.S. Government possessed information regarding the acquisition or attempted acquisition of electronic components and devices capable of being used in improvised explosive devices (IEDs) used against Coalition Forces in Iraq and Afghanistan. These two persons being added are not aliases of EKT Electronics, but are believed to be affiliated and involved in the same types of activities of concern under paragraphs (b)(1) and (b)(2) of Section 744.11 and therefore also warrant being added to the Entity List.

Similarly, the two persons located in France and the U.K. are being added to the Entity List as a result of their affiliation with IKCO Trading GmbH (IKCO), a person currently on the Entity List under Germany. The French and the U.K. persons are involved in the same types of Section 744.11 activities that resulted in IKCO being added to the Entity List on September 22, 2008 (73 FR 54507). BIS first included IKCO as a listed person under General Order No. 3, which was first published on June 5, 2006, and subsequently amended on September 6, 2006. As noted above, General Order No. 3 listed persons concerning whom the U.S. Government possessed information regarding the acquisition or attempted acquisition of electronic components and devices capable of being used in IEDs used against Coalition Forces in Iraq and Afghanistan. These two persons being added are not aliases of IKCO, but are believed to be affiliated and involved in the same types of activities of concern under paragraphs (b)(1) and (b)(2) of Section 744.11 and therefore also warrant being added to the Entity List.

For the four persons added to the Entity List on the basis of the annual review, the ERC specified a license requirement for all items subject to the EAR and established a license application review policy of a presumption of denial. The license requirement applies to any transaction in which items are to be exported, reexported, or transferred (in-country) to such persons or in which such persons act as purchaser, intermediate consignee, ultimate consignee, or end-user. In addition, no license exceptions are available for exports, reexports, or transfers (in-country) to those persons being added to the Entity List.

This final rule adds the following four persons to the Entity List:

#### Canada

(1) *EKT 2, Inc.*,  
371 Renforth Drive, Etobicoke M9C 2L8,  
Toronto, Ontario, Canada.

#### Egypt

(1) *AL-AMIR ELECTRONICS*,  
46 Falaki St. BabLouk Area, Cairo,  
Egypt.

#### France

(1) *IKCO France*,  
147 Avenue Charles de Gaulle, 92200,  
Neuilly-Sur-Seine, France.

#### United Kingdom

(1) *IKCO Finance*,  
6 Lothbury, London, England, EC2R

#### Savings Clause

Shipments of items removed from eligibility for a License Exception or export or reexport without a license (NLR) as a result of this regulatory action that were en route aboard a carrier to a port of export or reexport, on April 25, 2012, pursuant to actual orders for export or reexport to a foreign destination, may proceed to that destination under the previous eligibility for a License Exception or export or reexport without a license (NLR).

Although the Export Administration Act expired on August 20, 2001, the President, through Executive Order 13222 of August 17, 2001, 3 CFR, 2001 Comp., p. 783 (2002), as extended by the Notice of August 12, 2011, 76 FR 50661 (August 16, 2011), has continued the Export Administration Regulations in effect under the International Emergency Economic Powers Act. BIS continues to carry out the provisions of the Export Administration Act, as appropriate and to the extent permitted by law, pursuant to Executive Order 13222.

#### Rulemaking Requirements

1. Executive Orders 13563 and 12866 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). Executive Order 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This rule has been determined to be not significant for purposes of Executive Order 12866.

2. Notwithstanding any other provision of law, no person is required to respond to nor be subject to a penalty for failure to comply with a collection of information, subject to the requirements of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) (PRA), unless that collection of information displays a currently valid Office of Management and Budget (OMB) Control Number. This regulation involves collections previously approved by the OMB under control numbers 0694–0088, “Multi-Purpose Application,” which carries a burden hour estimate of 43.8 minutes for a manual or electronic submission. Total burden hours associated with the PRA and OMB control number 0694–0088 are not expected to increase as a result of this rule. You may send comments regarding the collection of information associated with this rule, including suggestions for reducing the burden, to Jasmeet K. Seehra, Office of Management and Budget (OMB), by email to [Jasmeet\\_K\\_Seehra@omb.eop.gov](mailto:Jasmeet_K_Seehra@omb.eop.gov), or by fax to (202) 395–7285.

3. This rule does not contain policies with Federalism implications as that term is defined in Executive Order 13132.

4. The provisions of the Administrative Procedure Act (5 U.S.C. 553) requiring notice of proposed rulemaking, the opportunity for public comment and a delay in effective date are inapplicable because this regulation involves a military or foreign affairs function of the United States. (*See* 5 U.S.C. 553(a)(1)). BIS implements this rule to protect U.S. national security or foreign policy interests by preventing items from being exported, reexported, or transferred (in country) to the persons being added to the Entity List. If this rule were delayed to allow for notice and comment and a delay in effective date, then entities being added to the Entity List by this action would

continue to be able to receive items without a license and to conduct activities contrary to the national security or foreign policy interests of the United States. In addition, because these parties may receive notice of the U.S. Government’s intention to place these entities on the Entity List once a final rule was published, it would create an incentive for these persons to either accelerate receiving items subject to the EAR to conduct activities that are contrary to the national security or foreign policy interests of the United States, and/or to take steps to set up additional aliases, change addresses, and other measures to try to limit the impact of the listing on the Entity List once a final rule was published. Further, no other law requires that a notice of proposed rulemaking and an opportunity for public comment be given for this rule. Because a notice of proposed rulemaking and an opportunity for public comment are not required to be given for this rule by 5 U.S.C. 553, or by any other law, the analytical requirements of the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, are not applicable.

**DEPARTMENT OF ENERGY****Federal Energy Regulatory Commission****18 CFR Part 40**

[Docket No. RM11–11–000; Order No. 761]

**Version 4 Critical Infrastructure Protection Reliability Standards****AGENCY:** Federal Energy Regulatory Commission, DOE.**ACTION:** Final rule.

**SUMMARY:** Under section 215 of the Federal Power Act, the Federal Energy Regulatory Commission (Commission) approves eight modified Critical Infrastructure Protection (CIP) Reliability Standards, CIP–002–4 through CIP–009–4, developed and

submitted to the Commission for approval by the North American Electric Reliability Corporation (NERC), the Electric Reliability Organization certified by the Commission. The CIP Reliability Standards provide a cybersecurity framework for the identification and protection of “Critical Cyber Assets” to support the reliable operation of the Bulk-Power System. Reliability Standard CIP–002–4 requires the identification and documentation of Critical Cyber Assets associated with “Critical Assets” that support the reliable operation of the Bulk-Power System and introduces “bright line” criteria for the identification of Critical Assets. The Commission approves the related Violation Risk Factors, Violation Severity Levels with modifications, implementation plan, and effective date proposed by NERC.

**DATES:** This rule will become effective June 25, 2012.
