BILLING CODE 4410-FY-P

DEPARTMENT OF JUSTICE

[OMB Number 1110-0071]

Agency Information Collection Activities; Proposed eCollection eComments Requested; Extension of a Previously Approved Collection; National Use-of-Force Data Collection

AGENCY: Federal Bureau of Investigation, Department of Justice.

ACTION: 30-Day notice.

SUMMARY: The Federal Bureau of Investigation (FBI), Department of Justice (DOJ), will be submitting the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995. The proposed information collection was previously published in the **Federal Register** on April 4, 2025, allowing a 60-day comment period.

DATES: Comments are encouraged and will be accepted for 30 days until June 9, 2025.

FOR FURTHER INFORMATION CONTACT: If you have comments especially on the estimated public burden or associated response time, suggestions, or need a copy of the proposed information collection instrument with instructions or additional information, please contact: Linda Shriver, Acting Unit Chief, Crime and Law Enforcement Statistics Unit, FBI, CJIS Division, Module D-2, 1000 Custer Hollow Road, Clarksburg, West Virginia 26306, telephone: 304-625-4830, email: llshriver@fbi.gov.

SUPPLEMENTARY INFORMATION: Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should

address one or more of the following four points:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and/or
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

Written comments and recommendations for this information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the OMB Control Number [1110-0071]. This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view Department of Justice, information collections currently under review by OMB.

DOJ seeks PRA authorization for this information collection for three (3) years. OMB authorization for an ICR cannot be for more than three (3) years without renewal. The DOJ notes that information collection requirements submitted to the OMB for existing ICRs receive a month-to-month extension while they undergo review.

Abstract: The FBI has a long-standing tradition of collecting data and providing statistics concerning Law Enforcement Officers Killed and Assaulted (LEOKA) and justifiable homicides. To provide a better understanding of the incidents of use of force by law enforcement, the FBI's Uniform Crime Reporting (UCR) Program developed a data collection for law enforcement agencies to provide information on incidents where the use of force by a law enforcement officer led to the death or serious bodily injury of a person, as well as when a law enforcement officer discharged a firearm at or in the direction of a person. When a use of force incident occurs, federal,

state, county, local, tribal, and territorial law enforcement agencies provide information to the data collection on characteristics of the incident, the victim(s) on which force was used by law enforcement, and the officers who applied force in the incident. Agencies positively affirm, monthly, whether their agency did or did not have a use of force incident that resulted in a fatality, a serious bodily injury to a person, or a firearm discharge at or in the direction of a person. When no use of force incident occurs in a month, agencies submit a zero report. Enrollment information from agencies and state points of contact is collected when the agency or contact initiates participation in the data collection. Enrollment information is updated no less than annually to assist with managing the data. The data collection defines a law enforcement officer using the current LEOKA definition: "All local, county, state, and federal law enforcement officers (such as municipal, county police officers, constables, state police, highway patrol, sheriffs, their deputies, federal law enforcement officers, marshals, special agents, etc.) who are sworn by their respective government authorities to uphold the law and to safeguard the rights, lives, and property of American citizens. They must have full arrest powers and be members of a public governmental law enforcement agency, paid from government funds set aside specifically for payment to sworn police law enforcement organized for the purposes of keeping order and for preventing and detecting crimes, and apprehending those responsible." The definition of "serious bodily injury" is based, in part, on Title 18, United States Code, Section 2246 (4), to mean "bodily injury that involves a substantial risk of death, unconsciousness, protracted and obvious disfigurement, or protracted loss or impairment of the function of a bodily member, organ, or mental faculty." These actions include the use of a firearm, an electronic control weapon (*e.g.*, taser), an explosive device, pepper or oleoresin capicum spray or other chemical agent, a baton, an impact projectile, a blunt instrument, hands-fists-feet, or canine.

SUPPLEMENTARY INFORMATION:

I. Introduction

The NRC received a subsequent license renewal application (SLRA)

from Duke Energy Progress, LLC, dated April 1, 2025, requesting subsequent renewal of Renewed Facility Operating License No. DPR-23, which authorizes Duke Energy Progress, LLC to operate H.B. Robinson Steam Electric Plant, Unit No. 2, up to 2,339 megawatts thermal. H.B. Robinson Steam Electric Plant, Unit No. 2, is located near Hartsville, SC. Duke Energy Progress, LLC submitted the SLRA pursuant to part 54 of title 10 of the *Code of Federal Regulations* (10 CFR), "Requirements for Renewal of Operating Licenses for Nuclear Power Plants." A notice of receipt of the SLRA was published in the **Federal Register** on April 21, 2025 (90 FR 16707).

The NRC staff has determined that Duke Energy Progress, LLC has submitted sufficient information in accordance with 10 CFR 54.19, 54.21, 54.22, 54.23, 51.45, and 51.53(c), to enable the staff to undertake a review of the SLRA and that, therefore, the SLRA is acceptable for docketing. The current docket number, 50-261, for Renewed Facility Operating License No. DPR-23 will be retained. The determination to accept the SLRA for docketing does not constitute a determination that a subsequent renewed license should be issued and does not preclude the NRC staff from requesting additional information as the review proceeds.

Before issuance of the requested subsequent renewed license, the NRC will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. In accordance with 10 CFR 54.29, the NRC may issue a subsequent renewed license on the basis of its review if it finds that actions have been identified and have been or will be taken with respect to: (1) managing the effects of aging during the period of extended operation on the functionality of structures and components that have been identified as requiring aging management review; and (2) time-limited aging analyses that have been identified as requiring review, such that there is reasonable assurance that the activities authorized by the subsequent renewed license will continue to be conducted in accordance with the current licensing basis and that any changes made to the plant's current licensing basis will comply with the Act and the Commission's regulations.

Additionally, in accordance with 10 CFR 51.95(c), the NRC staff will prepare an environmental impact statement as a supplement to the Commission's NUREG-1437, Revision 2, "Generic Environmental Impact Statement for License Renewal of Nuclear Plants," dated August 2024 (ADAMS Accession
