SUPPLEMENTARY INFORMATION:

Estimate of burden hours for information requested:

Respondents: Certified Disadvantaged Business Enterprises (DBEs) that are pursuing, in the process, or have obtained contracts on ARRA transportation infrastructure projects. US DOT/OSDBU spoke to the SBA Surety Bond Guarantee Program personnel and a representative of the Surety and Fidelity Association of America (SFAA) who represents the small and emerging businesses to obtain the required estimates. The average bond for a small and emerging business or DBE is between \$250,000 and \$500,000. To calculate the universe US DOT/OSDBU can serve, an average bond is estimated to be \$350,000. The Bonding Premium Fee charged by the Sureties is a range of 2 to 3% of the total bond, so using an average premium of 2.5% on a \$350,000 bond the DBE would pay \$8,750. The SBA Surety Guarantee Bond Program Principal Fee is currently set to .729% of the contract price, or bond amount. For a \$350,000 bond, the SBA principal fee is \$2,551. The average amount of financial assistance is \$11,300.00 per DBE on one application, submittal to include both eligible fees. Using these estimates, the number of DBEs that US DOT/OSDBU can assist with \$20 million is approximately 1,770.

1. *Needs and Uses:* The information collected will be from a DBE working on transportation infrastructure ARRA funded project. Under the DBE ARRA BAP program, DBEs performing on a transportation and infrastructure projects receiving ARRA funding assistance from any DOT mode of transportation such as Federal Highway

Administration (FHWA), Federal Transit Administration (FTA), Federal Aviation Administration (FAA), Federal Railroad Administration (FRA), Maritime Administration (MARAD) will receive financial bonding assistance in the form of bonding fee cost reimbursement. This provision is applicable to a subcontract or prime contract at any tier in the construction project. Under this program DOT will directly reimburse DBEs the premiums paid to the surety company for performance, payment or bid/proposal bonds. The range of the premium fee is between 1–3% of the total bond amount. In the event the DBE also obtains a bond guarantee from Small Business Administration's (SBA) Surety Bond Guarantee Program (SBGP), the DOT will also reimburse the DBE for the small business concern (principal) fee of .729% of the contract price. The information collected will be used by DOT OSDBU to verify eligibility, including whether the applicant is a current certified DBE.

2. Burden Statement: This collection is for DBEs working on transportation infrastructure ARRA funded project. DBEs are small businesses. Efforts have been made to simplify the application form, keeping it to one page with three page instructions to assist the DBE to submit a complete application package to expedite reimbursement and minimize burden. In addition a sample letter to show how to indicate the federal project number is included. Applicants will be able to find further guidance at <http://www.dot.gov/recovery/ost/>. A coordinated effort has been made with the DOT Operating Administrations to minimize duplicative reporting. OSDBU's intent is to give this subsidy reimbursement fee to the DBEs trying to obtain surety bonding to assist DBEs to become more competitive and perform on more transportation infrastructure projects receiving ARRA funding assistance from any DOT mode of transportation and minimize cash flow difficulties. Several applicant we have spoken to since August 28, 2009 (program launch date) has told us the application is self explanatory and they have not had any difficulties in filling it out or understanding the content and requirements.

Title: Passenger Origin-Destination Survey Report.

Form No.: None.

Type of Review: Extension of a currently approved collection.

Respondents: Large certificated air carriers that provide scheduled passenger service.

Number of Respondents: 35.

Total Number of Annual Responses: 140.

Estimated Time per Response: 240 hours.

Total Annual Burden: 33,600.

Needs and Uses: Survey data are used in monitoring the airline industry, negotiating international agreements, reviewing requests for the grant of anti-trust immunity for air carrier alliance agreements, selecting new international routes, selecting U.S. carriers to operate limited entry foreign routes, and modeling the spread of contagious diseases. The Passenger Origin-Destination Survey Report is the only aviation data collection by DOT where the air carriers report the true origins and destinations of passengers' flight itineraries. The Department does have another aviation data collection (T-100) which (1) gives passenger totals for city-pairs served on a nonstop basis and (2) market totals for passengers traveling on a single flight number. If the passenger travels on multiple flight numbers, a new market is recorded for each change in flight number.
