SUPPLEMENTARY INFORMATION:

Agenda

The Committee and Advisory Panel will continue work on the Council's Essential Fish Habitat (EFH) Review. They will consider technical information, next steps, and future Council actions related to: fishing impacts to EFH and measures to minimize adverse effects, necessary updates to EFH including prioritization across multiple Council actions during 2025-2027, and conceptual frameworks for designating Habitat Areas of Particular Concern and evaluating cumulative effects on EFH. They also plan to review recommendations for next steps and future Council actions developed at the December joint meeting with Mid-Atlantic Fishery Management Council's (MAFMC) Ecosystem and Ocean Planning Committee, as needed. The Committee and Advisory Panel will also discuss habitat and ocean planning work priorities for 2025. Other business will be discussed, if necessary.

Although non-emergency issues not contained on the agenda may come before this Council for discussion, those issues may not be the subject of formal action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the

emergency. The public also should be aware that the meeting will be recorded. Consistent with 16 U.S.C. 1852, a copy of the recording is available upon request.
