Polychloroprene Rubber From Japan: Initiation and Preliminary Results of Changed Circumstances Review, and Intent To Revoke Antidumping Duty Finding, in Part

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On August 4, 2008, the Department of Commerce (the Department) received a request from the petitioner, DuPont Performance

Elastomers L.L.C. (DPE)¹ for a changed circumstances review and a request to revoke, in part, the antidumping duty (AD) finding on certain polychloroprene rubber products from Japan. In its August 4, 2008 request, DPE stated that it no longer has any interest in antidumping relief from imports of such polychloroprene rubber with respect to the subject merchandise defined in the "Scope of the Finding" section below. Interested parties are invited to comment on these preliminary results.

DATES: *Effective Date:* September 29, 2008.

SUPPLEMENTARY INFORMATION:

Background

On December 6, 1973, the Department of the Treasury published, in the **Federal Register** (38 FR 33593), the AD finding on polychloroprene rubber from Japan.

On September 29, 2006, the Department amended the scope of the AD finding. Polychloroprene Rubber from Japan: Final Changed Circumstances Review and Determination to Revoke Finding in Part, 71 FR 57470 (September 29, 2006). On August 4, 2008, DPE requested revocation, in part, of the AD finding with respect to aqueous dispersions of 2-chlorobutadiene-1,3 homopolymers, where the polymer content of the dispersion is between 55 weight percent and 61 weight percent and the dispersed homopolymer contains less than 10 weight percent of a tetrahydrofuran-insoluble fraction, because DPE stated that it no longer has any interest in antidumping relief from those imports.

Scope of the Finding

Imports covered by this finding are shipments of polychloroprene rubber, an oil resistant synthetic rubber also known as polymerized chlorobutadiene or neoprene, currently classifiable under items 4002.41.00, 4002.49.00, and

¹ DPE is the sole petitioner in this antidumping proceeding. See Polychloroprene Rubber From Japan: Final Results of the Expedited Sunset Review of the Antidumping Finding, 69 FR 64276 (November 4, 2004). DPE has been the sole U.S. producer of polychloroprene rubber since 1998, when Bayer Group closed its polychloroprene rubber plant in Houston, Texas. See Polychloroprene Rubber from Japan, Inv. No. AA-1921-129 (Second Review), U.S. ITC Pub. 3786 (June 2005), at 4-5.
