

Total Annual Burden: 518,000 hours.
Abstract: Public Law 101-604 (entitled the Aviation Security Improvement Act of 1990, or "ASIA 90," and later codified as 49 U.S.C. 44909) requires that certificated air carriers and large foreign air carriers collect the full name of each U.S. citizen traveling on flight segments to or from the United States and solicit a contact name and telephone number. In case of an aviation disaster, airlines would be required to provide the information to the Department of State and, in certain circumstances, to the National Transportation Safety Board. Each carrier would develop its own collection system. The Passenger Manifest Information, Final Rule (14 CFR 243) was published in the **Federal Register**, Vol. 63, No. 32 (February 18, 1998). The rule was effective March 20, 1998.

Comments are invited on: (a) Whether this collection of information (third party notification) is necessary for the proper performance of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including through the use of automated techniques or other forms of information technology.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Todd M. Homan,

Director, Office of Aviation Analysis.

Civil Supersonic Aircraft Panel Discussion

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of meeting participation.

SUMMARY: This notice advises interested persons that the FAA is participating in a panel session on civil supersonic aircraft research. The session will include presentations on current research programs and a question and answer session for attendees. The FAA is seeking to raise public awareness of the continuing technological advances in supersonic aircraft technology aimed at reducing the intensity of sonic boom.

DATES: The public session will take place on Sunday, March 1, 2009. The panel discussion is from 10 a.m. to 12 noon in Palm Springs, CA.

ADDRESSES: The symposium is sponsored by the University of California Davis Air Quality Research Center and it will be held at the Hilton Palm Springs Hotel, 400 East Tahquitz Canyon Way, Palm Springs, CA. Attendance is open to all interested parties, and there are no fees to attend this session.

FOR FURTHER INFORMATION CONTACT:

Laurette Fisher, Office of Environment and Energy (AEE-100), Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; facsimile (202) 267-5594, telephone (202) 267-3561.

Background: Since March 1973, supersonic flight over land by civil aircraft has been prohibited in the United States. The Concorde was the only civil supersonic airplane that offered service to the United States, but that airplane is no longer in service.

The interest in supersonic aircraft technology has not disappeared. Current research is dedicated toward reducing the impact of sonic booms as they reach the ground, in an effort to make overland flight acceptable. Recent research has produced promising results for low boom intensity, and has renewed interest in developing supersonic civil aircraft that could be considered environmentally acceptable for supersonic flight over land.

The FAA led its first panel discussion entitled, "State of the Art of Supersonics Aircraft Technology—What has progressed in science since 1973," in Chicago, IL on Friday, October 24, 2008, as part of the O'Hare Noise Compatibility Commission Symposium.

The FAA's second presentation and panel discussion will take place on Sunday, March 1, 2009, as part of the Annual University of California Symposium on Aviation Noise and Air Quality. It will be held at the Hilton Palm Springs Hotel, 400 East Tahquitz Canyon Way, Palm Springs, California.

The purpose of this panel session is to raise public awareness on advances in supersonic technology, and for the FAA, the National Aeronautics and Space Administration (NASA), and industry to get feedback from interested persons.

Public involvement is essential in any future definition of an acceptable new standard that would allow supersonic flights over land. We anticipate that this will be the second of many meetings informing the public on developments in the research of shaped sonic booms

and other technical and environmental challenges that need to be addressed in developing a new supersonic airplane.

More information about the University of California Symposium can be found at: <http://www.cevs.ucdavis.edu/Cofred/Public/Aca/ConfHome.cfm?confid=392>.

Issued in Washington, DC, on February 6, 2009.

Carl E. Burleson,

Director of Environment and Energy.

RTCA Special Committee 147 Sixty Eighth Plenary: Minimum Operational Performance Standards for Traffic Alert and Collision Avoidance Systems Airborne Equipment

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of RTCA Special Committee 147 meeting.

SUMMARY: The FAA is issuing this notice to advise the public of a meeting of RTCA Special Committee 147: Minimum Operational Performance Standards for Traffic Alert and Collision Avoidance Systems Airborne Equipment.

DATES: The meeting will be held March 12, 2009 from 9 a.m.–5 p.m.

ADDRESSES: The meeting will be held at RTCA, Inc. 1828 L Street, Suite 805, Washington, DC 20036.

FOR FURTHER INFORMATION CONTACT: RTCA Secretariat, 1828 L Street, NW., Suite 805, Washington, DC 20036; telephone (202) 833-9339; fax (202) 833-9434; Web site <http://www.rtca.org>.

SUPPLEMENTARY INFORMATION: Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463, 5 U.S.C., Appendix 2), notice is hereby given for a Special Committee 147 meeting and Working Group 75. The agenda will include:

- March 12:
 - Opening Plenary Session: (Welcome and Introductory Remarks, Review/Approval if minutes from 67th SC-147 meeting, Review Agenda).
 - Surveillance Working Group: Request to consider/approve for final review and comment (FRAC) Change 1 to DO-300.
 - Requirements Working Group: Request to consider/approve for FRAC Change 1 to DO-185B.
 - EUROCAE WG-75: Status of current activities.

- TCAS Program Office: TCAS Monitoring efforts.
- DO-218 Current status and planned deliverables.
- AVS status on TSO-C119c publication.
- Certification Authorities (US and European) plans for Change 7.1 equipage.
- Closing Session (Other/New Business, Future Actions/Activities, Date and Place of Next Meeting, Adjourn).

Attendance is open to the interested public but limited to space availability. With the approval of the chairmen, members of the public may present oral statements at the meeting. Persons wishing to present statements or obtain information should contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section.

Members of the public may present a written statement to the committee at any time.

Issued in Washington, DC on February 5, 2009.

Francisco Estrada C.,
RTCA Advisory Committee.

Federal Motor Carrier Safety Administration

[Docket ID FMCSA-2008-0399]0

Qualification of Drivers; Exemption Applications; Diabetes

AGENCY: Federal Motor Carrier Safety Administration (FMCSA).

ACTION: Notice of applications for exemptions from the diabetes standard; request for comments.

SUMMARY: FMCSA announces receipt of applications from 37 individuals for exemptions from the prohibition against persons with insulin-treated diabetes mellitus (ITDM) operating commercial motor vehicles (CMVs) in interstate commerce. If granted, the exemptions would enable these individuals with ITDM to operate commercial motor vehicles in interstate commerce.

DATES: Comments must be received on or before March 16, 2009.

ADDRESSES: You may submit comments bearing the Federal Docket Management System (FDMS) Docket ID FMCSA-2008-0399 using any of the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov>. Follow the online instructions for submitting comments.

- *Mail:* Docket Management Facility; U.S. Department of Transportation, 1200 New Jersey Avenue, SE., West Building Ground Floor, Room W12-140, Washington, DC 20590-0001.

- *Hand Delivery:* West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue, SE., Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.
- *Fax:* 1-202-493-2251.

Each submission must include the Agency name and the docket ID for this Notice. Note that DOT posts all comments received without change to <http://www.regulations.gov>, including any personal information included in a comment. Please see the Privacy Act heading below.

Docket: For access to the docket to read background documents or comments, go to <http://www.regulations.gov> at any time or Room W12-140 on the ground level of the West Building, 1200 New Jersey Avenue, SE., Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The FDMS is available 24 hours each day, 365 days each year. If you want acknowledgment that we received your comments, please include a self-addressed, stamped envelope or postcard or print the acknowledgment page that appears after submitting comments online.

Privacy Act: Anyone may search the electronic form of all comments received into any of our dockets by the name of the individual submitting the comment (or of the person signing the comment, if submitted on behalf of an association, business, labor union, etc.). You may review the DOT's complete Privacy Act Statement in the **Federal Register** published on April 11, 2000 (65 FR 19476). This information is also available at <http://Docketinfo.dot.gov>.

FOR FURTHER INFORMATION CONTACT: Dr. Mary D. Gunnels, Director, Medical Programs, (202) 366-4001, fmcamedical@dot.gov, FMCSA, Department of Transportation, 1200 New Jersey Avenue, SE., Room W64-224, Washington, DC 20590-0001. Office hours are from 8:30 a.m. to 5 p.m., Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 31136(e) and 31315, FMCSA may grant an exemption for a 2-year period if it finds "such exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption." The statutes also

allow the Agency to renew exemptions at the end of the 2-year period. The 37 individuals listed in this notice have recently requested an exemption from the diabetes prohibition in 49 CFR 391.41(b)(3), which applies to drivers of CMVs in interstate commerce. Accordingly, the Agency will evaluate the qualifications of each applicant to determine whether granting the exemption will achieve the required level of safety mandated by the statutes.

Qualifications of Applicants

Michael D. Akers

Mr. Akers, age 43, has had ITDM since 2007. His endocrinologist examined him in 2008 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Akers meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2008 and certified that he does not have diabetic retinopathy. He holds a Class A commercial driver's license (CDL) from Georgia.

Donald J. Altier

Mr. Altier, 39, has had ITDM since 2008. His endocrinologist examined him in 2008 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Altier meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2008 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from Minnesota.

Richie Anderson

Mr. Anderson, 38, has had ITDM since 2008. His endocrinologist examined him in 2008 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring;
