BILLING CODE 4140-01-M

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Notice of Receipt of an Application To Renew an Incidental Take Permit by O.C. Mendes for Residential Development in Florida

AGENCY: Fish and Wildlife Service,
Interior.

ACTION: Notice.

The Permittee, O.C. Mendes, seeks renewal of an incidental take permit (ITP) originally issued August, 1994 by the Fish and Wildlife Service (Service) pursuant to section 10(a)(1)(B) of the Endangered Species Act of 1973, as amended (Act). The proposed take would be incidental to otherwise lawful activities, including residential development on private land owned by the Permittee. The Permittee has implemented the provisions of the previously approved Habitat Conservation Plan (HCP), as required by section 10(a)(2)(B) of the Act, to minimize and mitigate for the incidental take of the Federally threatened Florida scrub-jay (*Aphelocoma coerulescens*).

The subject permit authorized take of one family of Florida scrub-jays on approximately 5 acres of the Permittee's land in Brevard County, Florida. The Permittee has not initiated land clearing in preparation for construction since permit issuance. Due to natural forest succession and a lack of wildfire or controlled burning since 1994, the property has diminished in value for Florida scrub-jays and they currently do not occur there. The Permittee wishes to retain incidental take authority due to the uncertainty of scrub-jays reoccupying the site. A more detailed description of the mitigation and minimization measures to address the effects of the Project to the Florida scrub-jay is provided in the Permittee's HCP, the Service's Environmental Assessment (EA), and in the **SUPPLEMENTARY INFORMATION** section below.

The Service has determined that the previously approved Environmental Assessment (EA) and Habitat Conservation Plan for Incidental Take do not need amendment. Copies of the EA, HCP, and previously issued permit may be obtained by making a request to the Regional Office (see **ADDRESSES**). Requests must be in writing to be processed. The Service has determined that the Permittee's request for renewal will individually and cumulatively have a minor or negligible effect on the species covered in the HCP. Therefore, renewal of the ITP is a "low effect"

project and would qualify as a categorical exclusion under the National Environmental Policy Act (NEPA), as provided by the Department of Interior Manual (516 DM2, Appendix 1 and 516 DM 6, Appendix 1).

The Service specifically requests information, views, and opinions from the public via this Notice on the federal action, including the identification of any other aspects of the human environment not already identified in the Service's EA. Further, the Service specifically solicits information regarding the adequacy of the HCP as measured against the Service's ITP issuance criteria found in 50 CFR parts 13 and 17.

If you wish to comment, you may submit comments by any one of several methods. Please reference permit number TE791244-2 in such comments. You may mail comments to the Service's Regional Office (see **ADDRESSES**). You may also comment via the internet to "david_dell@fws.gov". Please submit comments over the internet as an ASCII file avoiding the use of special characters and any form of encryption. Please also include your name and return address in your internet message. If you do not receive a confirmation from the Service that we have received your internet message, contact us directly at either telephone number listed below (see **FURTHER INFORMATION**). Finally, you may hand deliver comments to either Service office listed below (see **ADDRESSES**). Our practice is to make comments, including names and home addresses of respondents, available for public review during regular business hours. Individual respondents may request that we withhold their home address from the administrative record. We will honor such requests to the extent allowable by law. There may also be other circumstances in which we would withhold from the administrative record a respondent's identity, as allowable by law. If you wish us to withhold your name and address, you must state this prominently at the beginning of your comments. We will not; however, consider anonymous comments. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.

DATES: Written comments on the ITP application, draft EA, and HCP should be sent to the Service's Regional Office (see **ADDRESSES**) and should be received on or before May 7, 2001.
