

B. Discussion and Analysis

One respondent submitted public comments on the extension of the previously approved information collection. The analysis of the public comments is summarized as follows:

Comment: The respondent commented that the extension of the information collection would violate the fundamental purposes of the Paperwork Reduction Act because of the burden it puts on the entity submitting the information and the agency collecting the information. The respondent opposes granting the extension of the information collection requirement.

Response: In accordance with the Paperwork Reduction Act (PRA), agencies can request an OMB approval of an existing information collection. The PRA requires that agencies use the **Federal Register** notice and comment process, to extend the OMB's approval, at least every three years. This extension, to a previously approved information collection, pertains to FAR 43.205 which allows a contracting officer, whenever the estimated cost of a change or series of related changes under a contract exceeds \$100,000, to assert the right in the clause at FAR 52.243-6, Change Order Accounting, to require the contractor to maintain separate accounts for each change or a series of related changes. Each account shall record all incurred segregable, direct costs (less allocable credits) of work, changed and unchanged, allocable to the change. These accounts are to be maintained until the parties agree to an equitable adjustment for the changes or until the matter is conclusively disposed of under the Disputes clause. Not granting this extension would consequently eliminate FAR clauses that provide a benefit to the public and the agency collecting the information.

Comment: The respondent commented that the agency did not accurately estimate the public burden challenging that the agency's methodology for calculating it is insufficient and inadequate and does not reflect the total burden. For this reason, the respondent provided that the agency should reassess the estimated total burden hours and revise the estimate upwards to be more accurate, as was done in FAR Case 2007-006. The same respondent also provided that the burden of compliance with the information collection requirement greatly exceeds the agency's estimate and outweighs any potential utility of the extension.

Response: Serious consideration is given, during the open comment period,

to all comments received and adjustments are made to the paperwork burden estimate based on reasonable considerations provided by the public. This is evidenced, as the respondent notes, in FAR Case 2007-006 where an adjustment was made from the total preparation hours from three to 60. This change was made considering particularly the hours that would be required for review within the company, prior to release to the Government.

The burden is prepared taking into consideration the necessary criteria in OMB guidance for estimating the paperwork burden put on the entity submitting the information. For example, consideration is given to an entity reviewing instructions; using technology to collect, process, and disclose information; adjusting existing practices to comply with requirements; searching data sources; completing and reviewing the response; and transmitting or disclosing information. The estimated burden hours for a collection are based on an average between the hours that a simple disclosure by a very small business might require and the much higher numbers that might be required for a very complex disclosure by a major corporation. Also, the estimated burden hours should only include projected hours for those actions which a company would not undertake in the normal course of business. Careful consideration went into assessing the burden for this collection and adjustments were made. However, at any point, members of the public may submit comments for further consideration, and are encouraged to provide data to support their request for an adjustment.

C. Annual Reporting Burden

The estimated number of respondents has increased from 200 to 10,636, based on information retrieved from the Federal Procurement Data System—Next Generation (FPDS-NG). For Fiscal Year 2012, 21,272 contractors were awarded modifications over \$100,000 on fixed-price type contracts, which are applicable to this information collection. It is estimated that only about half of these contractors would be required to submit the information under this collection, or 10,636 because of the improvement in Generally Accepted Accounting Principles (GAAP), the use of FAR cost principles (FAR subpart 31.2), and expanded use of Cost Accounting Standards (CAS). These procedures, in most cases, enable the Government to account for the cost of changes without having to resort to change order accounting. Submission to

the Government remains the same at 12, based on an estimated monthly submission, or 12 times a year. The estimated hours per response time of .5, or 30 minutes, is increased to 1 hour. This change is based on a reassessment of the estimated time required to gather and report the accounting information in the format specific to this information collection.

Respondents: 10,636.

Responses per Respondent: 12.

Annual Responses: 127,632.

Hours per Response: 1.

Total Burden Hours: 127,632.

SUPPLEMENTARY INFORMATION:

A. Purpose

In accordance with 31 U.S.C. 7701(c), a contractor doing business with a Government agency is required to furnish its Tax Identification Number (TIN) to that agency. 31 U.S.C. 3325(d) requires the Government to include, with each certified voucher prepared by the Government payment office and submitted to a disbursing official, the TIN of the contractor receiving payment under the voucher. 26 U.S.C. 6050M, as implemented in the Department of Treasury, Internal Revenue Service (IRS) regulations at Title 26 of the Code of Federal Regulations (CFR), requires heads of Federal executive agencies to report certain information to the IRS. 26 U.S.C. 6041 and 6041A, as implemented

in 26 CFR, in part, requires payors, including Government agencies, to report to the IRS, on form 1099, payments made to certain contractors.

To comply with the requirements of 31 U.S.C. 7701(c) and 3325(d), reporting requirements of 26 U.S.C. 6041, 6041A, and 6050M, and implementing regulations issued by the IRS in 26 CFR, FAR clause 52.204–3, Taxpayer Identification, requires a potential Government contractor to submit, among other information, its TIN. The TIN may be used by the Government to collect and report on any delinquent amounts arising out of the contractor’s relationship with the Government. A contractor is not required to provide its TIN on each contract in accordance with FAR clause 52.204–3, Taxpayer Identification, when FAR clause 52.204–7, Central Contractor Registration, is inserted in contracts. FAR clause 52.204–7 requires a potential Federal contractor to provide its TIN in the Central Contractor Registration (CCR) system.

B. Annual Reporting Burden

The annual reporting burden decreased from what was published in the **Federal Register** at 73 FR 20613, on April 16, 2008. The decrease is attributed to a revised estimate of the respondents and hours per response. A potential federal contractor is required to complete a one-time registration in CCR to provide basic information in order to be awarded a Federal Government contract. Part of a potential Federal contractor’s CCR registration includes providing its TIN in accordance with FAR 52.204–7. It is estimated that a significant number of Federal contractors will not be required to submit their TIN under this collection at FAR 52.204–3, due to the requirement to submit their TIN during the registration process. Based on Federal procurement Data Systems (FPDS) data, 193,397 unique contractors were awarded Federal Government contracts in Fiscal Year 2011 (FY11). We estimate that fifteen percent of the FY11 unique vendors, responding on average to three solicitations per year, are required to provide their TIN in accordance with FAR 52.204–3. In addition, based on the TIN being readily available business information within contractor’s system, the estimated hours per response is decreased to .10. The revised estimate of the annual reporting burden requirements is reflected below.

Respondents: 29,010.

Responses per Respondent: 3.

Total Responses: 87,030.

Hours per Response: .10.

Total Burden Hours: 8,703.
