

*Review*, 74 FR 37690 (July 29, 2009). On March 10, 2010, the Department published the extension of time limits for the preliminary results of the administrative reviews of the antidumping duty order. *See Folding Metal Tables and Chairs from the People's Republic of China: Notice of Extension of Time Limit for the Preliminary Results of the Antidumping Duty Administrative Reviews*, 75 FR 11120 (March 10, 2010). These reviews cover the periods June 1, 2007, through May 31, 2008, and June 1, 2008, through May 31, 2009.<sup>1</sup> The preliminary results of these reviews are currently due no later than May 8, 2010.<sup>2</sup>

#### Extension of Time Limit for Preliminary Results of Review

Pursuant to section 751(a)(3)(A) of the Tariff Act of 1930, as amended ("the Act"), the Department shall make a preliminary determination in an administrative review of an antidumping duty order within 245 days after the last day of the anniversary month of the date of publication of the order. The Act further provides, however, that the Department may extend that 245-day period to 365 days if it determines it is not practicable to complete the review within the foregoing time period.

The Department finds that it is not practicable to complete the preliminary results of the administrative reviews of folding metal tables and chairs from the PRC within this time limit. Specifically, additional time is needed to conduct verification of New-Tec's sales and factors of production, in accordance with 19 CFR 351.307(b)(v), and to determine the appropriate surrogate values with which to value factors of production. Therefore, in accordance with section 751(a)(3)(A) of the Act, the Department is extending the time period

for completion of the preliminary results of these reviews, which are currently due on May 8, 2010, by 60 days. Therefore, the preliminary results are now due no later than July 7, 2010.

This notice is published in accordance with sections 751(a)(3)(A) and 777(i) of the Act.

Dated: April 15, 2010.

**SUPPLEMENTARY INFORMATION:** The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a three-step process including: (1) Data Workshop, (2) Assessment Process utilizing webinars and (3) Review Workshop. The product of the Data Workshop is a data report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment Process is a stock assessment report which describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends
