##### *Summary of Information Collection*

This effort will collect qualitative

and evaluations. Feedback will be used  
as guidance for developing and  
evaluating DSS security education,  
training, and professionalization  
programs.

Two information collection efforts are  
required. Responses to both collections  
are voluntary.

The needs assessment is conducted  
prior to the development of training to  
collect data that will, in turn, be used  
to prescribe an appropriate course of  
action in response to a compliance  
requirement or to a performance  
deficiency that has been identified.  
Some of the collection questions are  
uniform, while others are unique to the  
type of product or service that is being  
requested. We request information in  
several areas, including: organizational  
goals and desired performance, training  
conditions, technological environment,  
types of jobs and tasks, types of  
programs needed, and target audience.

Evaluations are completed after a  
course of action has been implemented  
to collect data used to gather  
information about: the unmet training  
needs of the population served;  
maintaining and/or improving the  
course, job aid, or security event; and/  
or the effectiveness of operations that  
provide programs and activities  
supporting the job performance of  
security professionals.

Defense Security Service, Center for  
Development of Security Excellence,  
management, instructional systems  
designers, and instructional, technical  
and support staff responsible for the  
design and development of security  
products and services, will be the users  
of the data collected from needs  
assessments and evaluations.
