

Puerto Rico. The EAC Board of Advisors Virtual Meeting Room was established to enable the Board of Advisors to conduct business in an efficient manner in a public forum, including being able to review and discuss draft documents, when it is not feasible for an in-person board meeting. The Board of Advisors will not take any votes or propose any resolutions during the 5-day forum of August 4–August 8, 2008. Members will post comments about the draft Alternative Voting Methods report.

This activity is open to the public. The public may view the proceedings of this special forum by visiting the EAC Board of Advisors virtual meeting room at <http://www.eac.gov> at any time between Monday, August 4, 2008, 9 a.m. EDT and Friday, August 8, 2008, 6 p.m. EDT. The public also may view the draft alternative voting methods report, which will be posted on EAC's Web site beginning August 4, 2008. The public may file written statements to the EAC Board of Advisors at boardofadvisors@eac.gov. Data on EAC's Web site is accessible to visitors with disabilities and meets the requirements of section 508 of the Rehabilitation Act.

FOR FURTHER INFORMATION CONTACT: Bryan Whitener, Telephone: (202) 566–3100.

Gracia M. Hillman,
Commissioner, U.S. Election Assistance
Commission.

BILLING CODE 6820–KF–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. IC08–600–001, FERC–600]

Commission Information Collection Activities, Proposed Collection; Comment Request; Submitted for OMB Review

July 14, 2008.

AGENCY: Federal Energy Regulatory
Commission.

ACTION: Notice.

SUMMARY: In compliance with the requirements of section 3507 of the Paperwork Reduction Act of 1995, 44 U.S.C. 3507, the Federal Energy Regulatory Commission (Commission) has submitted the information collection described below to the Office of Management and Budget (OMB) for review of this information collection requirement. Any interested person may file comments directly with OMB and should address a copy of those

comments to the Commission as explained below. The Commission received no comments in response to an earlier **Federal Register** notice of January 30, 2008 (73 FR 5529–5531) and has made this notation in its submission to OMB.

DATES: Comments on the collection of information are due by August 21, 2008.

ADDRESSES: Address comments on the collection of information to the Office of Management and Budget, Office of Information and Regulatory Affairs, Attention: Federal Energy Regulatory Commission Desk Officer. Comments to OMB should be filed electronically, *c/o oira_submission@omb.eop.gov* and include the OMB Control No. (1902–0180) as a point of reference. The Desk Officer may be reached by telephone at 202–395–7345. A copy of the comments should also be sent to the Federal Energy Regulatory Commission, Office of the Executive Director, ED–34, Attention: Michael Miller, 888 First Street, NE., Washington, DC 20426.

Comments may be filed either in paper format or electronically. Those persons filing electronically do not need to make a paper filing. For paper filings, such comments should be submitted to the Secretary of the Commission, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426 and should refer to Docket No. IC08–600–001. Documents filed electronically via the Internet must be prepared in an acceptable filing format and in compliance with the Federal Energy Regulatory Commission submission guidelines. Complete filing instructions and acceptable filing formats are available at (<http://www.ferc.gov/help/submission-guide/electronic-media.asp>). To file the document electronically, access the Commission's Web site and click on Documents & Filing, E-Filing (<http://www.ferc.gov/docs-filing/efiling.asp>), and then follow the instructions for each screen. First time users will have to establish a user name and password. The Commission will send an automatic acknowledgment to the sender's e-mail address upon receipt of comments.

All comments may be viewed, printed or downloaded remotely via the Internet through FERC's homepage using the "eLibrary" link. For user assistance, contact ferconlinesupport@ferc.gov or toll-free at (866) 208–3676 or for TTY, contact (202) 502–8659.

FOR FURTHER INFORMATION CONTACT: Michael Miller may be reached by telephone at (202) 502–8415, by fax at (202) 273–0873, and by e-mail at michael.miller@ferc.gov.

SUPPLEMENTARY INFORMATION: The information collected under the requirements of FERC–600 Rules of Practice and Procedure: Complaint Procedures (OMB No. 1902–0180) is used by the Commission to implement the statutory provisions of the Federal Power Act (FPA), 16 U.S.C. 791a–825r; the Natural Gas Act (NGA), 15 U.S.C. 717–717w; the Natural Gas Policy Act (NGPA), 15 U.S.C. 3301–3432; the Public Utility Regulatory Policies Act of 1978 (PURPA), 16 U.S.C. 2601–2645; the Interstate Commerce Act, 49 U.S.C. App. § 1 *et seq.*; the Outer Continental Shelf Lands Act, 43 U.S.C. 1301–1356 and the Energy Policy Act of 2005, (Pub. L. 109–58) 119 Stat. 594.

With respect to the natural gas industry, section 14(a) of the NGA provides: The Commission may permit any person to file with it a statement in writing, under oath or otherwise, as it shall determine, as to any or all facts and circumstances concerning a matter which may be the subject of an investigation.

For public utilities, section 205(e) of the FPA provides: Whenever any such new schedule is filed, the Commission shall have the authority, either upon complaint or upon its own initiative without complaint at once, and, if it so orders, without answer or formal pleading by the public utility, but upon reasonable notice to enter upon hearing concerning the lawfulness of such rate, charge, classification, or service; and pending such hearing and decision of the Commission. * * *

Section 215(d)(5) of the FPA provides: The Commission, upon its own motion or upon complaint, may order the Electric Reliability Organization to submit to the Commission a proposed reliability standard or a modification to a reliability standard that addresses a specific matter if the Commission considers such a new or modified reliability standard appropriate to carry out this section. * * *

Concerning hydropower projects, section 19 of the FPA provides: * * * it is agreed as a condition of such license that jurisdiction is hereby conferred upon the Commission, upon complaint of any person aggrieved or upon its own initiative, to exercise such regulation and control until such time as the State shall have provided a commission or other authority for such regulation and control. * * *

For qualifying facilities, section 210(h)(2)(B) of PURPA provides: Any electric utility, qualifying co-generator, or qualifying small power producer may petition the Commission to enforce the requirements of subsection (f) as

provided in subparagraph (A) of this paragraph.

Likewise for oil pipelines, Part 1 of the Interstate Commerce Act (ICA), sections 1, 6 and 15 (re-codified by Pub. L. 95–473 and found as an appendix to Title 49 U.S.C.) the Commission is authorized to investigate the rates charged by oil pipeline companies subject to its jurisdiction. If a proposed oil rate has been filed and allowed by the Commission to go into effect without suspension and hearing, the Commission can investigate the effective rate on its own motion or by complaint filed with the Commission. Section 13 of the ICA provided that: Any person, firm, corporation, company or association, or any mercantile, agricultural, or manufacturing society or other organization, or any common carrier subject to the provisions of this chapter in contravention of the provisions thereof, may apply to the Commission by petition which shall briefly state the facts: Whereupon a statement of the complaint thus made shall be forwarded by the Commission to such common carrier, who shall be called upon to satisfy the complaint, or to answer the same in writing, within a reasonable time, to be specified by the Commission. * * *

In Order No. 602, 64 FR 17087 (April 8, 1999), the Commission revised its regulations governing complaints filed with the Commission under the above statutes. Order No. 602 was designed to encourage and support consensual resolution of complaints, and to

organize the complaint procedures so that all complaints are handled in a timely and fair manner. In order to achieve the latter, the Commission revised Rule 206 of its Rules of Practice and Procedure (18 CFR 385.206) to require that a complaint satisfy certain informational requirements, that answers be filed in a shorter, 20-day time frame, and that parties may employ various types of alternative dispute resolution procedures to resolve complaints.

In Order No. 647, 69 FR 32436 (June 10, 2004), the Commission revised its regulations to simplify the formats it requires for various types of notices. These revisions provide for a more uniform formatting and make it easier for the Commission to update the form of notice formatting without the necessity of initiating a rulemaking for every change. A new subsection 18 CFR 385.203(d) replaced the former format requirements. Among the provisions that were affected by these revisions was 18 CFR 385.206(b)(10).

On September 9, 2005, the Office of Management and Budget (OMB) approved the reporting requirements contained in FERC–600 for a term of three years, the maximum period permissible under the Paperwork Reduction Act¹ before an information collection must be resubmitted for approval. As noted above this notice seeks public comments in order for the Commission to submit a justification to OMB to approve and extend the current expiration date of the FERC–600

reporting requirements. The data in complaints filed by interested/affected parties regarding oil and natural gas pipeline operations, electric and hydropower facilities in their applications for rate changes, service, licensing or reliability are used by the Commission in establishing a basis for various investigations and to make an initial determination regarding the merits of the complaint.

Investigations may range from whether there is undue discrimination in rates or service to questions regarding market power of regulated entities to environmental concerns. In order to make a better determination, it is important to know the specifics of any oil, gas, electric, and hydropower complaint “upfront” in a timely manner and in sufficient detail to allow the Commission to act swiftly. In addition, such complaint data will help the Commission and interested parties to monitor the market for exercises of market power or undue discrimination. The information is voluntarily submitted with prescribed information. The Commission implements these filing requirements in the Code of Federal Regulations (CFR) under 18 CFR part 385, 385.206, 385.203 and 385.213.

Action: The Commission is requesting a three-year extension of the current expiration date, with no changes to the existing collection of data.

Burden Statement: Public reporting burden for this collection is estimated as:

Number of respondents annually (1)	Number of responses per respondent (2)	Average burden hours per response (3)	Total annual burden hours (1)×(2)×(3)
81*#	1	14	1,134

* Represents three year averages (2005–2007) #Rounded off.

Estimated cost burden to respondents is \$68,904. (1,134 hours/2,080 hours per year times \$126,384 per year average per employee = \$68,904). The cost per respondent is \$851. There is a significant decrease in the number of respondents and number of filings since the last renewal request. However, the cost per respondent has increased to reflect adjustments due to inflationary costs.

The reporting burden includes the total time, effort, or financial resources expended to generate, maintain, retain, disclose, or provide the information

including: (1) Reviewing instructions; (2) developing, acquiring, installing, and utilizing technology and systems for the purposes of collecting, validating, verifying, processing, maintaining, disclosing and providing information; (3) adjusting the existing ways to comply with any previously applicable instructions and requirements; (4) training personnel to respond to a collection of information; (5) searching data sources; (6) completing and reviewing the collection of information; and (7) transmitting, or otherwise disclosing the information.

The estimate of cost for respondents is based upon salaries for professional and clerical support, as well as direct and indirect overhead costs. Direct costs include all costs directly attributable to providing this information, such as administrative costs and the cost for information technology. Indirect or overhead costs are costs incurred by an organization in support of its mission. These costs apply to activities which benefit the whole organization rather than any one particular function or activity.

¹ Paperwork Reduction Act of 1995, Public Law 104–13, October 1, 1995, 44 U.S.C. 3501–3520.

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology *e.g.* permitting electronic submission of responses.

Kimberly D. Bose,

Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP08-431-000; PF08-6-000]

Columbia Gas Transmission Corporation; Notice of Application

July 11, 2008.

Take notice that on June 24, 2008, Columbia Gas Transmission Corporation (Columbia), 1700 MacCorkle Avenue, SE., Charleston, West Virginia 25314, filed in the above referenced docket an application pursuant to section 7(c) and 7(b) of the Natural Gas Act (NGA), for an order granting a certificate of public convenience to construct, own, and operate natural gas storage facilities in Ohio to provide storage services at market-based rates (Ohio Storage Expansion Project), all as more fully set forth in the application which is on file with the Commission and open to public inspection. The filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call toll-free, (886) 208-3676 or TTY, (202) 502-8659.

Any questions concerning this application may be directed to Fredric J. George, Lead Counsel, Columbia Gas Transmission Corporation, P.O. Box

1273, Charleston, West Virginia 25325-1273; telephone: 304-357-2359; fax: 304-357-3206.

On December 27, 2007, the Commission staff granted Columbia's request to utilize the Pre-Filing Process and assigned Docket No. PF08-6-000 to staff activities involved the Ohio Storage Expansion Project. Now as of the filing the June 24, 2008 application, the Pre-Filing Process for this project has ended. From this time forward, this proceeding will be conducted in Docket No. CP08-431-000, as noted in the caption of this Notice.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made in the proceeding with the Commission and must mail a copy to the applicant and to every other party. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentors will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings

associated with the Commission's environmental review process. Environmental commentors will not be required to serve copies of filed documents on all other parties. However, the non-party commentors will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Comment Date: August 1, 2008.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 13232-000]

Coastal Power, Inc.; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comment, Motions To Intervene, and Competing Applications

July 11, 2008.

On May 27, 2008, Coastal Power, Inc. filed an application, pursuant to section 4(f) of the Federal Power Act, proposing to study the feasibility of the Hell Gate Tidal Project, to be located on the East River in the Manhattan area of New York.

The proposed project would consist of: (1) Six Venturi Water Turbines, dimensions approximately four feet by twelve feet, anchored to the bottom of
