**Proposal to approve under OMB delegated authority the extension for three years, with revision, of the following report:**

*Report title:* Intermittent Survey of Businesses

*Agency form number:* FR 1374

*OMB control number:* 7100-0302

*Frequency:* on occasion

*Reporters:* businesses

*Annual reporting hours:* 205

*Estimated average hours per response:* 15 minutes

*Number of respondents:* 250

*General description of report:* This information collection is voluntary (12 U.S.C. §§ 225a and 263) and may be given confidential treatment (5 U.S.C. § 552(b)(4)).

*Abstract:* The survey data are used by the Federal Reserve to gather information specifically tailored to the Federal Reserve's policy and operational responsibilities. There are two parts to this event-generated survey. First, the Federal Reserve Banks survey business contacts as economic developments warrant. Currently, they conduct these surveys two times per year, with approximately 120 business respondents for each survey (about ten per Reserve Bank). Usually, these surveys are conducted by Reserve Bank economists telephoning or emailing purchasing managers, economists, or other knowledgeable individuals at selected, relevant businesses. The frequency and content of the questions, as well as the businesses contacted, vary depending on changing developments in the economy. Second, economists at the Board survey business contacts by telephone, inquiring about current business conditions. Historically, these surveys have been conducted biweekly, with approximately ten respondents for each survey.

*Current actions:* The Federal Reserve proposes to revise the frequency of both parts of the survey in response to recent changes in the demand for these data by the Board members. The Reserve Bank part of the survey would be conducted as economic events dictate (about three times per year). The Board part of the survey would be conducted on an event-generated basis, no more than ten times per year. In addition, the Federal Reserve proposes to increase the number of respondents for the Reserve

Bank part of the survey from 120 to 240 (twenty per Reserve Bank).

**Proposal to approve under OMB delegated authority the extension for three years, without revision, of the following reports:**

*Report title:* Semiannual Report of Derivatives Activity

*Agency form number:* FR 2436

*OMB control number:* 7100-0286

*Frequency:* Semiannually

*Reporters:* U.S. dealers of over-the-counter derivatives

*Annual reporting hours:* 2,100

*Estimated average hours per response:* 150

*Number of respondents:* 7

*General description of report:* This information collection is voluntary (12 U.S.C. §§ 225a, 263, 348a, and 353-359) and is given confidential treatment (5 U.S.C. § 552(b)(4)).

*Abstract:* Data are collected on notional amounts and gross market values of outstanding OTC derivatives contracts for broad categories of market risk: foreign exchange, interest rate, equities, commodities, and credit. For the different types of market risk except commodities, further detail is collected on the underlying market risk of each contract—the underlying currency, equity market, or reference entity (borrower). This collection of information complements the triennial Central Bank Survey of Foreign Exchange and Derivatives Market Activity (FR 3036; OMB No. 7100-0285). The FR 2436 collects similar data on the outstanding volume of derivatives, but not on derivatives turnover. The Federal Reserve conducts both surveys in coordination with other central banks and forwards the aggregated data furnished by U.S. reporters to the Bank for International Settlements (BIS), which publishes global market statistics that are aggregations of national data.
