Adequacy Status of the Cincinnati, Ohio/Indiana Submitted 8-Hour Ozone Redesignation and Maintenance Plans for Transportation Conformity Purposes

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of adequacy.

SUMMARY: In this notice, EPA is notifying the public that we have found that the motor vehicle emissions budgets (MVEBs) for volatile organic compounds (VOCs) and oxides of nitrogen (NOx) as precursors to ozone in the Ohio and Indiana portions of the Cincinnati-Hamilton, OH/KY/IN ozone nonattainment area are adequate for use in transportation conformity determinations. Ohio submitted a redesignation request and maintenance plan for Cincinnati, Ohio on December 14, 2009. The MVEBs in the submittal include emissions for the Ohio portion and also the Indiana portion of the Cincinnati area. Indiana submitted a redesignation request and maintenance plan for Lawrenceburg Township in Dearborn County, Indiana, which is part of the Cincinnati 8-hour ozone nonattainment area, on January 21, 2010. Indiana and Ohio submitted identical MVEBs for the combined Ohio and Indiana portions of the Cincinnati area.

As a result of our finding, the Cincinnati, Ohio area must use the MVEBs from the submitted ozone maintenance plan for future transportation conformity determinations.

DATES: This finding is effective March 11, 2010.
