SUPPLEMENTARY INFORMATION:

Title: Information Collection Request for Evaluation of PrintSTEP, EPA ICR Number 1941.01. This is a new collection.

Abstract: Information will be collected for evaluation of the PrintSTEP pilot program. The evaluation aims to systematically identify the impacts the program has had on three types of stakeholders: printers, community residents, and the state government agencies administering the program.

Specifically, the evaluation will determine the extent to which the 7 goals of the pilot program are met. The goals are: enhanced environmental protection; increased use of pollution prevention practices; simplified regulatory process for printers; improved efficiency of administration for state governments; enhanced public involvement; participants' realize benefits and are motivated to participate in PrintSTEP; and, cost effectiveness for all stakeholders.

This broad set of expected outcomes will require a range of distinct data collection and analysis activities. Data will be gathered from printer's program applications, from telephone interviews, from in-person interviews and possibly from focus groups. Data will be collected before implementation, a short time after program implementation, and at the end of the pilot. Responses to the collection of information are voluntary. Names of persons providing information will be not recorded. More information is available in the final draft of the Evaluation Strategy which can be accessed at http://www.epa.gov/ooaujeag/sectors/pdf/pgm_eval.pdf.
