

court on October 22, 2019, in *Center for Biological Diversity et al. v. EPA et al.* (N.D. Ca) (3:11-cv-00293). EPA stated in that settlement that it would also include the herbicides propazine and glyphosate in this group of effects determinations. The Agency has completed a comprehensive, nationwide draft BE for the use of glyphosate relative to the potential effects on listed species and their designated critical habitats.

After considering a number of requests to extend the comment period received from various stakeholders, EPA is extending the comment period for the following reasons: (1) The length, complexity, and highly technical nature of the draft biological evaluations; (2) the need for some stakeholders to engage experts familiar with the subject matter to assist them with providing comments; (3) the large number of stakeholders potentially impacted by the draft biological evaluations; (4) the importance of soliciting feedback from stakeholders who may be affected; and (5) the stakeholders' need for additional time to review and develop constructive comments for this BE document. This document extends the comment period for 45 days, from January 26, 2021 to March 12, 2021.

To submit comments, or access the docket, please follow the detailed instructions provided under **ADDRESSES** in the **Federal Register** document of November 27, 2020. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

Authority: 7 U.S.C. 136 *et seq.*

Dated: December 16, 2020.
