Title: Accounting Requirements for Electric and Telecommunications Borrowers.

OMB Control Number: 0572-0003.

Type of Request: Extension of a currently approved information collection.

Abstract: The Rural Utilities Service is a credit agency of the USDA which makes direct and guaranteed loans to finance electric and telecommunications facilities in rural areas. Accounting requirements that are unique to RUS borrowers are contained in 7 CFR parts 1767 and 1770 which establish basic accounting requirements for the recording of financial information that must be available to the management, investors, and lenders of any business enterprise. This collection is primarily a record keeping requirement, although the Agency is requiring borrowers to establish an index of records. The hours of burden to maintain this index are

directly related to the portions of the accounting system that are unique to the Agency. There are many important financial considerations for retention and preservation of accounting records. One of the most important considerations to RUS is that documentation be available so that the borrower's records may be audited for proper disbursements of funds.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 2 hours per response.

Respondents: Business or other for-profit, Not-for-profit institutions.

Estimated Number of Respondents and Recordkeepers: 1,000.

Estimated Number of Responses per Respondent: 1.

Estimated Number of Hours per Recordkeeper: 24 hours.

Estimated Total Annual Burden on Respondents: 2,000 Hours.

Estimated Total Annual Burden on Recordkeepers: 25,000 hours.

Copies of this information collection can be obtained from Kimble Brown, Management Analyst, Innovation Center, Regulations Management Division, at (202) 720-6780; All responses to this notice will be summarized and included in the request for OMB approval.
