(*See* 33 U.S.C. 1226; 46 U.S.C.; 33 CFR 1.05-1, 6.01; Department of Homeland Security Delegation No. 0170.1). The MTSA includes a provision exempting these Area Maritime Security Committees (AMSCs) from the Federal Advisory Committee Act (FACA), Public Law 92-436, 86 Stat. 470 (5 U.S.C. App.2). The AMSCs shall assist the Captain of the Port in the review, update, and exercising of the AMS Plan for their area of responsibility. Such matters may include, but are not limited to: Identifying critical port infrastructure and operations; Identifying risks (threats, vulnerabilities, and consequences); Determining mitigation strategies and implementation methods; Developing strategies to facilitate the recovery of the Maritime Transportation Security (MTS) after a Transportation Security Incident; Developing and describing the process to continually evaluate overall port security by considering consequences and vulnerabilities, how they may change over time, and what additional mitigation strategies can be applied; and Providing advice to, and assisting the Captain of the Port in developing and maintaining the Area maritime Security Plan.

**Title of Proposal:** Disaster Assistance Program Incremental Rent Transition Study.

**Description of the need for the information and proposed use:** To assist households displaced by Hurricane Katrina in 2005, the Disaster Housing Assistance Program (DHAP) was implemented to provide rental assistance and case management services to eligible displaced families from September 1, 2007, through February 28, 2009. DHAP was implemented in phases, and the type and terms of rental assistance varied over time. DHAP presents a unique opportunity to track families transitioning from stepped-down rental subsidies (*i.e.*, starting with a full subsidy of rent and then decreasing it by \$50 per month) or a full rental subsidy (*i.e.*, a full subsidy—\$0 rent) to market rate or alternative housing assistance programs and to measure their outcomes over time.

The U.S. Department of the Housing and Urban Development (HUD) is conducting an outcome evaluation entitled the Disaster Housing Assistance Program (DHAP) Incremental Rent Transition (IRT) Study. This study represents an important opportunity for HUD to learn about rent-setting strategies and case management services in a post-disaster housing program. The results of this study will feed into decisions about how HUD should operate such programs after future disasters. In particular, this study will increase HUD's understanding of how to structure and scale down voucher rent systems and the accompanying case management services following a disaster.

The data collection effort for the DHAP IRT Study initially involved a baseline survey conducted under OMB
