

in fact, corroborate the prices of the new home market grades presented by petitioners.

With respect to certain other data included in the margin calculations of the petition (e.g., inland freight), neither respondents nor other interested parties provided the Department with further relevant information and the Department is aware of no other independent sources of information that would enable it to further corroborate the remaining components of the margin calculation in the petition. The implementing regulation for section 776 of the Act, at 19 CFR 351.308(c), states "[t]he fact that corroboration may not be practicable in a given circumstance will not prevent the Secretary from applying an adverse inference as appropriate and using the secondary information in question." Additionally, we note that the SAA at 870 specifically states that, where "corroboration may not be practicable in a given circumstance," the Department may nevertheless apply an adverse inference. Accordingly, we find, for purposes of this preliminary determination, that the information used is sufficiently corroborated.

All Others

Section 735(c)(5)(B) of the Act provides that, where the estimated weighted-average dumping margins established for all exporters and producers individually investigated are zero or *de minimis* or are determined entirely under section 776 of the Act, the Department may use any reasonable method to establish the estimated all-others rate for exporters and producers not individually investigated. Our recent practice under these circumstances has been assign, as the "all others" rate, the simple average of the margins in the petition. *See Notice of Final Determination of Sales at Less Than Fair Value: Stainless Steel Plate in Coil from Canada*, 64 FR 15457 (March 31, 1999); *Notice of Final Determination of Sales at Less Than Fair Value: Stainless Steel Plate in Coil from Italy*, 64 FR 15458, 15459 (March 21, 1999).

We are basing the "all others" rate on the simple average of margins in the petition and information placed on the record by petitioners on August 13, 1999 and November 12, 1999, which is 31.98 percent.

Suspension of Liquidation

In accordance with section 733(d) of the Act, we are directing the Customs Service to suspend liquidation of all imports of subject merchandise that are entered, or withdrawn from warehouse, for consumption on or after the date of publication of this notice in the **Federal**

Register. We will instruct the Customs Service to require a cash deposit or the posting of a bond equal to the weighted-average dumping margin indicated in the chart below. These suspension-of-liquidation instructions will remain in effect until further notice. The weighted-average dumping margins are as follows:

Exporter/manufacturer	Weighted-average margin (percentage)
Kawasaki Steel Corporation	65.21
Nippon Steel Corporation	65.21
NKK Corporation/Toa Steel Co., Ltd.	65.21
Sumitomo Metals Industries, Ltd. Tokyo Steel Manufacturing Co., Ltd.	65.21
Topy Industries, Limited	65.21
All Others	31.98
