

media; and conducting ID media accountability audits.

TSA has determined that Amazon Air possesses the latest, sophisticated access control and monitoring systems that enhance security by significantly restricting access to cargo and aircraft. Amazon Air is in the process of installing these systems at access points at these locations. As a subsidiary of a profitable, private sector leader in technology, Amazon Air benefits from ample resources to purchase advanced equipment as needed, without regard to local government budget restrictions that many airports face. This factor provides a level of assurance that the security capability will remain consistent and substantial. Amazon Air's independent economic stability also provides a level of assurance that it will be able to quickly obtain any necessary expertise it may need to carry out all of the EAA functions going forward.

### III. Authority and Determination

TSA may grant an exemption from a regulation if TSA determines that the exemption is in the public interest.<sup>13</sup> TSA finds this exemption to be in the public interest for several reasons. First, TSA has evaluated Amazon Air's security apparatus with respect to access control and monitoring, vetting and ID media issuance, and cargo management and movement, and determined it to be modern, strong, and resilient. Second, Amazon Air's significant personnel expansion at these locations may strain the resources of airport operator and aircraft operator badging offices, adversely affecting other airport vendors, and limiting new hire capability. Amazon Air's ability under an EAA to initiate the employee vetting functions that the airport authorities would otherwise be required to conduct will more efficiently manage volume as needed. This factor should reap economic benefits for the surrounding areas in terms of employment, and to other airport vendors who will not be adversely affected by a sudden increase in airport ID media issuance. Moreover, extending the authorities under an EAA to Amazon Air at these locations is consistent with Executive Order 13725 of April 16, 2016 (Steps to Increase Competition and Better Inform Consumers and Workers to Support Continued Growth of the American Economy)<sup>14</sup> to promote competition and reduce regulatory restrictions where possible. Finally, under the EAAs, TSA

will have direct oversight of Amazon Air's security activities, rather than indirectly through an aircraft operator for which Amazon Air is an authorized representative. Given the scale of Amazon Air's commercial activities and physical infrastructure that must be secured at these airports, TSA compliance oversight will be more efficient and effective if conducted directly over Amazon Air.

Therefore, TSA has determined that it is in the public interest to grant CVG, BWI, and RFD an exemption from the provision in 49 CFR 1542.111 that limits the persons with whom an airport operator may execute an EAA to aircraft operators and foreign air carriers. Under this exemption, CVG, BWI, and RFD, respectively, may enter into an EAA with Amazon Air consistent with TSA EAA-requirements. These exemptions apply only to these airports and their respective EAAs with Amazon Air.

### IV. Exemptions

**Applicability:** These exemptions apply to CVG, BWI, and RFD.

**Exemption:** For the duration of each exemption, CVG, BWI, and RFD, respectively, may apply for an amendment to their airport security program that permits the airport operator to enter into an EAA in accordance with 49 CFR 1542.111 with Amazon Air, notwithstanding that Amazon Air is not a TSA-regulated aircraft operator or foreign air carrier. The terms of the EAA replace the requirements in 49 CFR part 1542 so long as Amazon Air complies with the EAA. This amendment and the EAA must require Amazon Air to comply with all relevant Security Directives and Emergency Amendments issued by TSA.

**Duration:** These exemptions take effect on July 26, 2021. At CVG, BWI, and RFD, Amazon Air may begin performing as an EAA-holder on the date on which TSA approves an amendment to the respective airport operator's airport security program implementing each executed EAA. Each exemption will remain in effect while the airport operator's TSA-approved airport security program remains in effect. TSA may direct revisions to the ASP amendment and EAA with regard to one or more of the covered airport operators, for security reasons under 49 CFR 1542.105(b). TSA may rescind the ASP amendment and EAA, and may rescind or modify the exemption, with regard to one or more of the covered airport operators, at any time.

Dated: July 19, 2021.

**A. Overview of Information Collection**

*Title of Information Collection:*  
Housing Counseling Agency Activity Report.

*OMB Approval Number:* 250–new.

*OMB Expiration Date:* None.

*Type of Request:* New Collection.

*Form Number:* HUD–9902, Housing Counseling Agency Activity Report.

*Description of the need for the information and proposed use:* The purpose of this information is to collect data related to performance and impact on housing counseling performed by HUD-approved housing counseling agencies.

Information collected through the form HUD–9902 is critical as the data provided allows HUD to demonstrate program impact to Congress and the Office of Management and Budget (OMB). Additionally, the data collected on form HUD–9902 plays a key role in analyzing performance and capacity during the Office of Housing Counseling's Notice of Funding Availability (NOFA) process.

*Respondents:* Not-for-profit institutions; State, Local or Tribal Government.

*Estimated Number of Respondents:* 1,714.

*Estimated Number of Responses:* 1,714.

*Frequency of Response:* Quarterly (in a calendar year).

*Average Hours per Response:* .75 hours.

*Total Estimated Burden:* 2,566 hours.

**B. Solicitation of Public Comment**

This notice is soliciting comments from members of the public and affected parties concerning the collection of information described in Section A on the following:

(1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) The accuracy of the agency's estimate of the burden of the proposed collection of information;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) Ways to minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

(5) Ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

HUD encourages interested parties to submit comment in response to these questions.
