Abstract of Proposed Collection

The U.S. Government agreed that Afghans paroled under Operation Allies Welcome (OAW) or those paroled then subsequently granted Temporary Protected Status (TPS), could request U.S. Government-supported family reunification support for their spouses and unmarried children under 21 who remain physically present in Afghanistan. The Office of the Coordinator for Afghan Relocation Efforts (CARE) is using the DS-4317 to collect this information under emergency authorization from OMB. This authorization expires on 7/31/2023.

State requires a publicly advertised system that is sustainable and efficient and that enables data validation with U.S. Government databases. The Department requests continuance of the existing authority to use the DS-4317 to acquire the most current and accurate data possible to inform its relocation assistance efforts. It will enable the

Department to build a current picture of how many Afghans may be eligible for relocation and to progress with assisting them to depart Afghanistan. The online form helps avoid unstructured requests for assistance, such as those that arrive via email messages, which may not include important information, such as family size and their biodata, and which often require entry into other systems to facilitate responses. This form is integrated with other elements of the Department's evolving information technology platform, enhancing the efficient handling of individual cases.

The information on this form is requested pursuant to 5 U.S.C. 301 (Secretary of State's authorities with respect to Management of the Department of State), 22 U.S.C. 2651a (Organization of the Department of State), and 8 U.S.C. 1101-1537 (Immigration and Nationality Act of 1952, as amended).

Methodology

Information from applicants is collected through an electronic version of the DS-4317. Data from the application is stored in IRM's ServiceNow platform.

Kevin E. Bryant,

Deputy Director, Office of Directrices Management, Department of State.
