14 CFR Part 71

[Docket No. FAA–2021–0740; Airspace Docket No. 21–ASW–15]

RIN 2120–AA66

Proposed Amendment Class E Airspace and Establishment of Class E; Greenville and Terrell, TX

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to amend the Class E airspace at Greenville, TX, and establish Class E airspace at Terrell, TX. The FAA is proposing this action as the result of airspace reviews due to the decommissioning of the Caddo Mills non-directional beacon (NDB). The geographic coordinates of Caddo Mills Municipal Airport, Caddo Mill, TX, would also be updated to coincide with the FAA's aeronautical database.

DATES: Comments must be received on or before October 28, 2021.

ADDRESSES: Send comments on this proposal to the U.S. Department of Transportation, Docket Operations, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE, Washington, DC 20590; telephone (202) 366–9826, or (800) 647–5527. You must identify FAA Docket No. FAA–2021–0740/Airspace Docket No. 21–ASW–15, at the beginning of your comments. You may also submit comments through the internet at <https://www.regulations.gov>. You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office between 9:00 a.m. and 5:00 p.m., Monday through Friday, except federal holidays.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would amend the Class E airspace extending upward from 700 feet above the surface at Caddo Mills Municipal Airport, Caddo Mills, TX, contained within the Greenville, TX, airspace legal description, and establish Class E airspace extending upward from 700 feet above the surface at Terrell Municipal Airport, Terrell, TX, to support instrument flight rule operations at these airports.

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments

are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal.

Communications should identify both docket numbers and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. FAA–2021–0740/Airspace Docket No. 21–ASW–15." The postcard will be date/time stamped and returned to the commenter.

All communications received before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this notice may be changed in light of the comments received. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRMs

An electronic copy of this document may be downloaded through the internet at <https://www.regulations.gov>. Recently published rulemaking documents can also be accessed through the FAA's web page at https://www.faa.gov/air_traffic/publications/airspace_amendments/.

You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office (see the **ADDRESSES** section for the address and phone number) between 9:00 a.m. and 5:00 p.m., Monday through Friday, except federal holidays. An informal docket may also be examined during normal business hours at the Federal Aviation Administration, Air Traffic Organization, Central Service Center, Operations Support Group, 10101 Hillwood Parkway, Fort Worth, TX 76177.

Availability and Summary of Documents for Incorporation by Reference

This document proposes to amend FAA Order 7400.11E, Airspace Designations and Reporting Points, dated July 21, 2020, and effective September 15, 2020. FAA Order 7400.11E is publicly available as listed in the **ADDRESSES** section of this

document. FAA Order 7400.11E lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

The FAA is proposing an amendment to 14 CFR part 71 by:

Amending the Class E airspace extending upward from 700 feet above the surface to within a 6.4-mile (decreased from a 6.5-mile) radius of Caddo Mills Municipal Airport, Caddo Mills, TX, contained within the Greenville, TX, airspace legal description; removing the Caddo Mills RBN and associated extension from the Greenville, TX, airspace legal description; removing Terrell Municipal Airport and the associate airspace from the Greenville, TX, airspace legal description as the airspace no longer adjoins and separate airspace is being established for Terrell, TX; removing the city associated with Majors Airport, Greenville, TX, to comply with updates to FAA Order 7400.2N, Procedures for Handling Airspace Matters; updating the geographic coordinates of the Caddo Mills Municipal Airport to coincide with the FAA's aeronautical database; and removing the exclusionary language as it is no longer required;

And establishing the Class E airspace extending upward from 700 feet above the surface within a 6.5-mile radius of Terrell Municipal Airport, Terrell, TX.

These actions are the result of airspace reviews caused by the decommissioning of the Caddo Mills NDB which provided guidance to instrument procedures at these airports.

Class E airspace designations are published in paragraph 6005 of FAA Order 7400.11E, dated July 21, 2020, and effective September 15, 2020, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

FAA Order 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3)

does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.

Federal Travel Regulation; Rental Car Policy Updates and Clarifications

AGENCY: Office of Government-wide Policy (OGP), General Services Administration (GSA).

ACTION: Proposed rule.

SUMMARY: This proposed rule would clarify that agencies can reimburse rental car fees (up to a certain number of days) for Outside the Continental United States (OCONUS) relocations as a miscellaneous expense allowance to account for privately owned vehicle (POV) shipping delays at the employee's new official station. The proposed rule also updates rental car insurance policy to state that the Government will pay for both collision damage waiver(s) and theft insurance on rental car used OCONUS and also clarifies that rental cars may be used for the same purposes as a Government vehicle (other than a Government aircraft). Finally, the proposed rule substitutes the terms "gas" and "gasoline" with the term "fuel" where appropriate. The term "fuel" is broader as it still includes gasoline as a fuel source and also encompasses alternate vehicle energy sources, like electricity. A definition of the term "Fuel" is added to the FTR.

DATES: Interested parties should submit written comments to the Regulatory Secretariat Division at the address shown below on or before November 12, 2021 to be considered in the formation of the final rule.
