

Commission “higher of cost or market” rule under Order No. 707.¹

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission’s Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. On or before the comment date, it is not necessary to serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the “eFiling” link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the “eLibrary” link and is available for review in the Commission’s Public Reference Room in Washington, DC. There is an “eSubscription” link on the Web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please email FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Comment Date: 5 p.m. Eastern Time on March 9, 2012.

Dated: February 14, 2012.

Kimberly D. Bose,
Secretary.

MATL LLP; Montana Alberta Tie, Ltd; Notice of Petition for Declaratory Order

Take notice that on February 13, 2012, MATL LLP (MATL) and Montana Alberta Tie Ltd (Montana Alberta Tie)

(collectively, Applicants), filed a Petition for Declaratory Order, requesting that the Federal Energy Regulatory Commission (Commission) confirm that MATL will continue to have negotiated rate authority following the completion of a transaction under which Enbridge Inc. (Enbridge) has become the new ultimate owner of Applicants.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission’s Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. On or before the comment date, it is not necessary to serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the “eFiling” link at <http://www.ferc.gov>. [Project No. 14329-000]

Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications; Grand Coulee Project Hydroelectric Authority

On December 1, 2011, the Grand Coulee Project Hydroelectric Authority filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Banks Lake Pumped Storage Project (Banks Lake Project or project) to be located on Banks Lake and Franklin D. Roosevelt Lake (Roosevelt Lake), near the town of Grand Coulee, Douglas and Grant Counties, Washington. The project would be located on federal lands administered by the U.S. Bureau of Reclamation (Reclamation) and the U.S. Bureau of Land Management (BLM). The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter

¹ Supplement Notice, Supplemental Notice For Staff Technical Conference, issued February 2, 2012.

upon lands or waters owned by others without the owners' express permission.

The proposed project has two alternatives:

Alternative 1

The proposed project would use Reclamation's existing Banks Lake as the upper reservoir and Roosevelt Lake as the lower reservoir. The proposed project would consist of the following new facilities: (1) An upper reservoir inlet/outlet structure equipped with trash racks; (2) a 1.5-mile-long penstock consisting of a vertical shaft, power tunnel segments, and a tailrace section, extending between the upper reservoir inlet/outlet and the reversible turbine/generator units in the powerhouse; (3) an underground powerhouse containing four reversible turbine/generator units rated for 250 megawatts (MW) each, for a total installed generation of 1,000 MW, or a powerhouse located on the shore of Roosevelt Lake, also containing four 250-MW reversible turbine/generator units; (4) a 2-mile-long, 500-kilovolt (kV) transmission line extending from the project powerhouse to an existing 500-kV substation; and (5) appurtenant facilities. The estimated annual generation of Alternative 1 for the Banks Lake Project would be 2,263 gigawatt-hours (GWh).

Alternative 2

The proposed project would use Reclamation's existing Banks Lake as the lower reservoir. The proposed project would consist of the following new facilities: (1) A new 312-acre upper reservoir constructed approximately 3,000 feet west of the existing Banks Lake, impounded by three earth and rockfill embankments, each with a crest elevation of 2,300 feet above mean sea level; (2) an upper reservoir inlet/outlet structure equipped with trash racks; (3) a 620-foot-long, 43-foot-diameter vertical shaft connecting the upper reservoir inlet/outlet structure to the power tunnels; (4) four 1,700-foot-long, 17-foot-diameter power tunnels leading from the vertical shaft to the powerhouse; (5) an underground powerhouse containing four reversible turbine/generator units rated for 260 MW each, for a total installed generation of 1,040 MW; (6) a 25-foot-diameter tailrace tunnel between the powerhouse and the existing Banks Lake; (7) a 2.4-mile-long, 500-kV transmission line extending from the project powerhouse to a new 500-kV substation; and (8) appurtenant facilities. The estimated annual generation of Alternative 2 for the Banks Lake Project would be 2,978 GWh.

Applicant Contact: Mr. Ronald K. Rodewald, Secretary-Manager, Grand Coulee Project Hydroelectric Authority, P.O. Box 219, Ephrata, WA 98823; phone: (509) 754-2227.

FERC Contact: Jennifer Harper; phone: (202) 502-6136.

Deadline for filing comments, motions to intervene, competing applications (without notices of intent), or notices of intent to file competing applications: 60 days from the issuance of this notice. Competing applications and notices of intent must meet the requirements of 18 CFR 4.36. Comments, motions to intervene, notices of intent, and competing applications may be filed electronically via the Internet. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site <http://www.ferc.gov/docs-filing/efiling.asp>. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at <http://www.ferc.gov/docs-filing/ecomment.asp>. You must include your name and contact information at the end of your comments. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll free at 1-866-208-3676, or for TTY, (202) 502-8659. Although the Commission strongly encourages electronic filing, documents may also be paper-filed. To paper-file, mail an original and seven copies to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

More information about this project, including a copy of the application, can be viewed or printed on the "eLibrary" link of Commission's Web site at <http://www.ferc.gov/docs-filing/elibrary.asp>. Enter the docket number (P-14329) in the docket number field to access the document. For assistance, contact FERC Online Support.

Dated: February 14, 2012.

Kimberly D. Bose,
Secretary.

[Project No. 14216-000]

Fall River Community Hydro Project; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On June 27, 2011, Fall River Valley Community Service District, California, filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Fall River Community Hydro Project to be located on Fall River, near the town of Fall River Mills, Shasta County, California. The project affects federal lands administered by the Bureau of Land Management. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following facilities: (1) An open conduit that would deliver water from the Pit 1 diversion to a penstock; (2) an existing penstock connecting the conduit to the powerhouse; (3) two pump-turbines totaling 900 kilowatts (kW) (1 × 300 kW unit and 1 × 600 kW unit) of generating capacity; and (4) an existing 3-phase power line on site. The project's annual energy output would range from 4 to 6 gigawatt hours.

Applicant Contact: Mr. John Van den Bergh, Fall River Valley Community Service District, P.O. Box 427, Fall River Mills, California 96028; phone (530) 336-5263.

FERC Contact: Carolyn Templeton; phone: (202) 502-8785.
