SUPPLEMENTARY INFORMATION:

I. Abstract

The United States Patent and Trademark Office (USPTO) is required by 35 U.S.C. 131 *et seq.* to examine an application for patent and, when appropriate, issue a patent. The provisions of 35 U.S.C. 122(c), 122(e), 131, and 151, as well as 37 CFR 1.290 and 1.291, limit the ability of a third-party to have information entered and

considered in, or to protest, a patent application pending before the USPTO.

37 CFR 1.290 provides a mechanism for third parties to submit to the USPTO, for consideration and inclusion in the record of a patent application, any patents, published patent applications, or other printed publications of potential relevance to the examination of the application.

A third-party submission under 37 CFR 1.290 may be made in any nonprovisional utility, design, and plant application, as well as in any continuing application. A third-party submission

under 37 CFR 1.290 must include a concise description of the asserted relevance of each document submitted, and must be submitted within a certain statutorily specified time period.

37 CFR 1.291 permits a member of the public to file a protest against a pending application. Protests pursuant to 37 CFR 1.291 are supported by a separated statutory provision from third-party submissions under 37 CFR 1.290. As a result, there are several differences between protests and third-party submissions, as explained in the table below.

TABLE 1—COMPARISON OF THIRD-PARTY SUBMISSION AND PROTESTS

Comparison	Third-party submission	Protest
Statute/Regulation	35 U.S.C. 122(e), 37 CFR 1.290	35 U.S.C. 122(c), 37 CFR 1.291.
Content	Printed publications	Printing publications and any facts or information adverse to patentability.
Remarks	Concise description of relevance (limited to a concise description of each document's relevance).	Concise explanation of the relevance (allows for arguments against patentability).
Timing	Prior to Allowance and prior to later of: 6 months after Pre-Grant Publication or first rejection of any claim.	Prior to Allowance and prior to Pre-Grant Publication OR Prior to Allowance and after and after Pre-Grant Publication with application consent.

This information collection covers the items needed to provide the public the means to submit information and protests regarding patent applications to the USPTO. This information collection is necessary so that the public may contribute to the quality of issued patents. The USPTO will use this information, as appropriate, to assist in evaluating the patent application as it moves through the patent examination process.

The USPTO uses the mean rate for attorneys in private firms which is \$400 per hour.

Estimated Total Annual (Non-hour) Respondent Cost Burden: \$80,456. This information collection has no capital start-up, maintenance, or operating fees. However, there are postage costs and filing fees. The total non-hour respondent cost burden for this information collection in the form of filing fees (\$80,335) and postage costs (\$121) is approximately \$80,456.

In particular, 37 CFR 1.290 requires payment of the fee set forth in 37 CFR 1.17(o) for every ten documents, or

fraction thereof, listed in each third-party submission.

The USPTO provides an exemption from the 1.17(o) fee requirement where a third-party submission listing three or fewer total documents is the first third-party submission submitted in an application by the third-party, or a party in privity with the third-party. The effect of this is that the first three documents submitted by a third-party are exempt from the fee requirement. However, the submission of four or

more documents by a third-party triggers the collection of the fee.

There is no fee for filing protests under 37 CFR 1.291 unless the filed protest is the second or subsequent protest by the same real party in interest, in which case the 37 CFR 1.17(i) fee must be included. The USPTO estimates that only 1 out of every 10 protests filed per year will require this fee.

Total	80,335

Although the USPTO prefers that the items in this information collection be submitted electronically, responses may be submitted by mail through the United States Postal Service (USPS). The USPTO estimates that the average postage cost for a mailed submission, using a Priority Mail 2-day flat rate legal envelope, will be \$8.05. The USPTO estimates that 15 submissions may be mailed to the USPTO, for a total postage cost of \$121 per year.

Respondent's Obligation: Required to obtain or retain benefits.

IV. Request for Comments

The USPTO is soliciting public comments to:

(a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(b) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(c) Enhance the quality, utility, and clarity of the information to be collected; and

(d) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

All comments submitted in response to this notice are a matter of public record. USPTO will include or summarize each comment in the request to OMB to approve this information

collection. Before including an address, phone number, email address, or other personal identifying information (PII) in a comment, be aware that the entire comment—including PII—may be made publicly available at any time. While you may ask in your comment to withhold PII from public view, USPTO cannot guarantee that it will be able to do so.

SUPPLEMENTARY INFORMATION:

Additions

On 11/27/2020 and 3/5/2021, the Committee for Purchase From People Who Are Blind or Severely Disabled published notice of proposed additions to the Procurement List. This notice is published pursuant to 41 U.S.C. 8503 (a)(2) and 41 CFR 51-2.3.

After consideration of the material presented to it concerning capability of qualified nonprofit agencies to provide the service(s) and impact of the additions on the current or most recent contractors, the Committee has determined that the service(s) listed below are suitable for procurement by the Federal Government under 41 U.S.C. 8501-8506 and 41 CFR 51-2.4.

Regulatory Flexibility Act Certification

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organizations that will furnish the service(s) to the Government.
2. The action will result in authorizing small entities to furnish the service(s) to the Government.
3. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 8501-8506) in connection with the service(s) proposed for addition to the Procurement List.

End of Certification

Accordingly, the following service(s) are added to the Procurement List:

Service(s)

Service Type: Contractor Operated Civil Engineer Supply Store
Mandatory for: US Air Force, Whiteman AFB, MO
Designated Source of Supply: South Texas Lighthouse for the Blind, Corpus Christi, TX
Contracting Activity: DEPT OF THE AIR FORCE, FA4625 509 CONS CC

One (1) public comment was received in response to the **Federal Register** notice of November 27, 2020 (85 FR 229) regarding the proposed addition to the Procurement List of the requirement to operate a Contractor Operated Civil Engineer Supply Store (COCESS) for the U.S. Air Force at Whiteman AFB, MO. The commenter stated that the proposed service was not suitable for performance under the AbilityOne Program. The
