

expected to be consistent with the revised Forest Plan.

Responsible Official

The Forest Supervisor of the Lincoln National Forest is the deciding officer for this project. The Forest Supervisor will issue a record of decision at the conclusion of the National Environmental Policy Act (NEPA) process, and after evaluating public comments received on the draft EIS.

Nature of Decision To Be Made

The Forest Service is the lead agency for the project. Based on the results of the NEPA analysis and consideration of public comments, the Forest Supervisor will authorize implementation of one of the following: (1) The no action alternative; or (2) the agency's proposed action, including the adaptive management strategy, Forest Plan amendment, and any protection measures or mitigations necessary to minimize or avoid adverse impacts.

The decision will be based on a consideration of the environmental effects of implementing the proposed action or other alternatives that may be developed to respond to significant issues. The Forest Supervisor may select the proposed action, a modified proposed action or alternative, another alternative analyzed in detail, or no action.

Scoping Process

This notice of intent initiates the scoping process, which guides the development of the environmental impact statement. The Forest Service will host a public scoping meeting. See the **ADDRESSES** section for details on the location, date, and time of the meeting.

It is important that reviewers provide their comments at such times and in such manner that they are useful to the agency's preparation of the environmental impact statement. Therefore, comments should be provided prior to the close of the comment period and should clearly articulate the reviewer's concerns and contentions.

This proposed project is an activity implementing a land management plan and is subject to the objection process described in 36 CFR 218 Subparts A and C. As such, individuals and organizations wishing to be eligible to file a predecisional objection must meet the information requirements in 36 CFR 218.25(a)(3). Comments received in response to this solicitation, including names and addresses of those who comment, will become part of the public record for this project and may be released under the Freedom of

Information Act. Comments submitted anonymously will be accepted and considered; however, anonymous commenters will have no standing to participate in subsequent administrative review or judicial review.

Glycine From the People's Republic of China: Preliminary Results of Antidumping Duty Administrative Review and Rescission of Antidumping Duty Administrative Review, In Part; 2015-2016

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (the Department) is conducting an administrative review of the antidumping duty order on glycine from the People's Republic of China (the PRC) covering the period of review (POR) from March 1, 2015, through February 29, 2016. We preliminarily determine that sales of subject merchandise by Baoding Mantong Fine Chemistry Co., Ltd. (Baoding Mantong) were made at less than normal value during the POR. Further, we are rescinding the review with respect to Kumar Industries and Rudraa International. Finally, we preliminarily find Huayang Chemical Co., Ltd. (Huayang Chemical) failed to establish eligibility for a separate rate and is being considered part of the PRC-wide entity. Interested parties are invited to comment on these preliminary results.

DATES: Effective April 7, 2017.

FOR FURTHER INFORMATION CONTACT: Dena Crossland or Brian Davis, AD/CVD Operations, Office VI, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-3362 or (202) 482-7924, respectively.

SUPPLEMENTARY INFORMATION:

Background

These preliminary results are made in accordance with section 751(a) of the Tariff Act of 1930, as amended (the Act). The Department published a notice of opportunity to request an administrative review of the antidumping duty order on glycine from the PRC for the POR on

March 1, 2016.¹ On May 2, 2016, in response to a timely request from domestic interested party, GEO Specialty Chemicals, Inc. (GEO), and in accordance with section 751(a) of the Act and 19 CFR 351.221(c)(1)(i), we initiated an administrative review of the antidumping duty order on glycine from the PRC (*Order*).² For a complete description of the events that followed the initiation of this review, *see* the Preliminary Decision Memorandum.³ A list of topics included in the Preliminary Decision Memorandum is provided as an appendix to this notice. The Preliminary Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>, and to all parties in the Central Records Unit, room B8024 of the main Department of Commerce building. In addition, a complete version of the Preliminary Decision Memorandum can be accessed directly at <http://enforcement.trade.gov/frn/>. The signed and the electronic versions of the Preliminary Decision Memorandum are identical in content.

Scope of the Order

The product covered by the antidumping duty order is glycine, which is a free-flowing crystalline material, like salt or sugar.⁴ The subject merchandise is currently classifiable under the Harmonized Tariff Schedule of the United States (HTSUS) subheading 2922.49.4020. The HTSUS subheading is provided for convenience and customs purposes only; the written product description of the scope of the order is dispositive.⁵

PRC-Wide Entity

Because the Department preliminarily determines that Huayang Chemical is not eligible for a separate rate because it failed to respond to the Department's antidumping questionnaire, we find
