

The current address of the TUV facility (site) already recognized by OSHA is: TUV Rheinland of North America, Inc., 12 Commerce Road, Newton, CT 06470.

Final Decision and Order

The NRTL Program staff examined TUV's expansion application, the assessor's recommendation, and other pertinent information. Based on its review of this evidence, OSHA finds that TUV meets the requirements of 29 CFR 1910.7 for expansion of its recognition, subject to the limitation and conditions listed below. Pursuant to the authority in 29 CFR 1910.7, OSHA hereby expands the recognition of TUV, subject to this limitation and these conditions.

Limitation

OSHA limits the expansion of TUV's recognition to testing and certification of products for demonstration of conformance to the following test standard, which OSHA determined is an appropriate test standard, within the meaning of 29 CFR 1910.7(c):

UL 913: Intrinsically Safe Apparatus and Associated Apparatus for Use in Class I, II, and III, Division 1, Hazardous Locations

The designation and title of the above-mentioned test standard was current at the time of the preparation of the preliminary notice.

OSHA limits recognition of TUV, or any NRTL, for a particular test standard to equipment or materials (i.e., products) for which OSHA standards require third-party testing and certification before use of the products in the workplace. Consequently, if a test standard also covers any product(s) for which OSHA does not require such testing and certification, an NRTL's scope of recognition does not include that product(s).

The American National Standards Institute (ANSI) may approve the test standard listed above as American National Standards. However, for convenience, we use the designation of the standards-developing organization for the standard, as opposed to the ANSI designation. Under OSHA's NRTL procedures, any NRTL recognized for an ANSI-approved test standard may use either the latest proprietary version of the test standard or the latest ANSI version of that standard. Interested parties may contact ANSI to determine whether or not a test standard is currently ANSI approved.

Conditions

TUV also must abide by the following conditions of the recognition, in

addition to those conditions already required by 29 CFR 1910.7:

1. TUV must allow OSHA access to TUV's facilities and records for purposes of ascertaining continuing compliance with the terms of its recognition, and to conduct investigations that OSHA deems necessary;

2. If TUV has reason to doubt the efficacy of any test standard it is using under the NRTL Program, it must promptly inform the test standard-developing organization of this concern and provide that organization with appropriate relevant information upon which it bases its concern;

3. TUV must not engage in, or permit others to engage in, any misrepresentation of the scope or conditions of its recognition. As part of this condition, TUV agrees that it will allow no representation that it is either a recognized or an accredited NRTL without clearly indicating the specific equipment or material for which it has recognition, or that its recognition is limited to specific products;

4. TUV must inform OSHA as soon as possible, in writing, of any change of ownership, facilities, or key personnel, and of any major change in its operations as an NRTL, and provide details of the change(s);

5. TUV must meet all the terms of its recognition and comply with all OSHA policies pertaining to this recognition; and

6. TUV must continue to meet the requirements for recognition in all areas for which it has recognition.

Authority and Signature

David Michaels, Ph.D., MPH, Assistant Secretary of Labor for Occupational Safety and Health, 200 Constitution Avenue NW., Washington, DC 20210, authorized the preparation of this notice. Accordingly, the Agency is issuing this notice pursuant to Section 8(g)(2) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 657(g)(2)), Secretary of Labor's Order No. 1-2012 (77 FR 3912, Jan. 25, 2012), and 29 CFR 1910.7.

Signed at Washington, DC, on March 20, 2013.

David Michaels,

Assistant Secretary of Labor for Occupational Safety and Health.

BILLING CODE 4510-26-P

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice 13-031]

NASA Advisory Council; Science Committee; Earth Science Subcommittee; Meeting

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, Public Law 92-463, as amended, the National Aeronautics and Space Administration (NASA) announces a meeting of the Earth Science Subcommittee of the NASA Advisory Council (NAC). This Subcommittee reports to the Science Committee of the NAC. The meeting will be held for the purpose of soliciting, from the scientific community and other persons, scientific and technical information relevant to program planning.

DATES: Thursday, April 11, 2013, 12:30 p.m. to 3:00 p.m., Local Time.

ADDRESSES: This meeting will take place telephonically. Any interested person may call the USA toll free conference call number 800-857-7040, pass code ESS, to participate in this meeting by telephone.

FOR FURTHER INFORMATION CONTACT: Ms. Marian Norris, Science Mission Directorate, NASA Headquarters, Washington, DC 20546, (202) 358-4452, fax (202) 358-3094, or mnorris@nasa.gov.

SUPPLEMENTARY INFORMATION: The agenda for the meeting includes the following topics:

—Review of Earth Science Division Goals and Objectives
—Discussion of the NASA Data Center Study

It is imperative that the meeting be held on this date to accommodate the scheduling priorities of the key participants.

Patricia D. Rausch,

Advisory Committee Management Officer, National Aeronautics and Space Administration.
