

environmental conditions in the Mid Atlantic Region.

The U.S. Environmental Protection Agency is working with Federal/State/local and academic partners to produce an online interactive, spatial inventory of public health bio monitoring databases within environmental programs and health surveillance databases for the Mid Atlantic region. Data identified by the inventory will contribute to the Mid Atlantic Integrated Assessment (MAIA) experimental research and monitoring effort that links human health and environmental condition and will build upon the success of the MAIA regional scale geographic assessment of ecological condition. The efforts will combine many scientific disciplines including ecology, chemistry, geology, hydrology, economics, sociology, psychology, political science, statistics, informatics, GIS, and health science (e.g., public health, medical and veterinary science, pharmacology, toxicology, etc) in an effort to study the effects of the changed environment upon humans. Data is to be collected by the individual interview (either in person or by phone calls) on an unpaid voluntary basis. The data in the inventory will be available electronically and on the Internet for use by a variety of resource managers, regulators, the scientific community and the informed public. The data will allow the user to identify the location, purpose, agency/institution participation, parameter characteristics (type, frequency, format) and data disposition for each inventoried program. The inventory will contain information on program design, program administration, and specific meta-data on parameters that are monitored on environmental health. It will not include any personal information or any confidential information.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9.

The EPA would like to solicit comments to: (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) enhance the quality, utility, and clarity of the information to be collected; and (iii) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection

techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Burden Statement: The number of respondents will average some 75–85 respondents from multiple sources inclusive of public/private/State/Federal and independent groups for issues of broad national interest within public health and environmental bio-monitoring areas. It is estimated to average 1 hour per respondent for completion of the survey tool, which is voluntary. Frequency of this burden is only once until the surveillance program is reorganized or altered. The total cost of the start-up, capital, O & M should average approximately \$2,000.00. The survey tools are administered individually to each respondent, thus there are no postage costs incurred or other related expenses for the respondents within the survey sample to be pooled. Burden means the total time, effort, or financial resources expended by person to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions, develop, acquire, install and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Dated: June 7, 2004.

Steve Hedtke,

Acting Director, National Health Environmental Effects Research Laboratory.

EXPORT-IMPORT BANK OF THE UNITED STATES

Economic Impact Policy

This notice is to inform the public that the Export-Import Bank has received an application to finance the export of up to \$200 million of equipment and other goods and services to a buyer in Egypt. The U.S. exports will enable the Egyptian company to produce anhydrous ammonia from natural gas. The Egyptian company will have a production capacity of 2,000

metric tons of ammonia per day, with initial production to commence in the latter part of 2007. It is envisioned this new production will be consumed primarily in Jordan and India. Interested parties may submit comments on this transaction by e-mail to economic.impact@exim.gov or by mail to 811 Vermont Avenue, NW., Room 1238, Washington, DC 20571, within 14 days of the date this notice appears in the **Federal Register**.

Helene S. Walsh,

Director, Policy Oversight and Review.

FEDERAL ELECTION COMMISSION

[Notice 2004–10]

Filing Dates for the North Carolina Special Election in the 1st Congressional District

AGENCY: Federal Election Commission.

ACTION: Notice of filing dates for special election.

SUMMARY: North Carolina has scheduled a special general election on July 20, 2004, to fill the U.S. House of Representatives seat in the First Congressional District vacated by Representative Frank W. Ballance, Jr.

Committees participating in the North Carolina Special General Election are required to file pre- and post-election reports.

FOR FURTHER INFORMATION CONTACT: Mr. Kevin R. Salley, Information Division, 999 E Street, NW., Washington, DC 20463; Telephone: (202) 694–1100; Toll Free (800) 424–9530.

SUPPLEMENTARY INFORMATION:

Principal Campaign Committees

All principal campaign committees of candidates participating in the North Carolina Special General Election shall file a 12-day Pre-General Report on July 8, 2004; and a 30-day Post-General Report on August 19, 2004. (See chart below for the closing date for each report).

Unauthorized Committees (PACs and Party Committees)

Political committees filing on a quarterly basis in 2004 are subject to special election reporting if they make previously undisclosed contributions or expenditures in connection with the North Carolina Special General Election by the close of books for the applicable report(s). (See chart below for the closing date for each report).
