

completed and received by NASA no later than August 17, 2023 will also be treated as objections to the grant of the contemplated exclusive, co-exclusive or partially exclusive license. Objections submitted in response to this notice will not be made available to the public for inspection and, to the extent permitted by law, will not be released under the Freedom of Information Act.

**Objections and Further Information:** Written objections relating to the prospective license or requests for further information may be submitted to Agency Counsel for Intellectual Property, NASA Headquarters at Email: [hq-patentoffice@mail.nasa.gov](mailto:hq-patentoffice@mail.nasa.gov). Questions may be directed to Phone: (202) 358-0646.

**SUPPLEMENTARY INFORMATION:** NASA intends to grant an exclusive, co-exclusive, or partially exclusive patent license in the United States to practice the inventions described and claimed in: U.S. Patent No. 9,455,374 B2 entitled "Integrated Multi-Color Light Emitting Device Made with Hybrid Crystal Structure," and U.S. Patent No. 9,711,680 B2 entitled "Integrated Multi-Color Light Emitting Device Made with Hybrid Crystal Structure" to Global Photonics Solutions LLC having its principal place of business at 166 Valley Street, Building 6M, Providence Rhode Island, 02909. The fields of use may be limited. NASA has not yet made a final determination to grant the requested license and may deny the requested license even if no objections are submitted within the comment period.

This notice of intent to grant an exclusive, co-exclusive or partially exclusive patent license is issued in accordance with 35 U.S.C. 209(e) and 37 CFR 404.7(a)(1)(i). The patent rights in these inventions have been assigned to the United States of America as represented by the Administrator of the National Aeronautics and Space Administration. The prospective license will comply with the requirements of 35 U.S.C. 209 and 37 CFR 404.7.

Information about other NASA inventions available for licensing can be found online at <http://technology.nasa.gov>.

## NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (23-080)]

### Notice of Intent To Grant an Exclusive, Co-Exclusive or Partially Exclusive Patent License

**AGENCY:** National Aeronautics and Space Administration.

**ACTION:** Notice of intent to grant exclusive, co-exclusive or partially exclusive patent license.

**SUMMARY:** NASA hereby gives notice of its intent to grant an exclusive, co-exclusive or partially exclusive patent license to practice the inventions described and claimed in the patents and/or patent applications listed in **SUPPLEMENTARY INFORMATION** below.

**DATES:** The prospective exclusive, co-exclusive or partially exclusive license may be granted unless NASA receives written objections including evidence and argument, no later than August 17, 2023 that establish that the grant of the license would not be consistent with the requirements regarding the licensing of federally owned inventions as set forth in the Bayh-Dole Act and implementing regulations. Competing applications completed and received by NASA no later than August 17, 2023 will also be treated as objections to the grant of the contemplated exclusive, co-exclusive or partially exclusive license. Objections submitted in response to this notice will not be made available to the public for inspection and, to the extent permitted by law, will not be released under the Freedom of Information Act.

**Objections and Further Information:** Written objections relating to the prospective license or requests for further information may be submitted to Agency Counsel for Intellectual Property, NASA Headquarters at Email: [hq-patentoffice@mail.nasa.gov](mailto:hq-patentoffice@mail.nasa.gov). Questions may be directed to Phone: (202) 358-0646.

**SUPPLEMENTARY INFORMATION:** NASA intends to grant an exclusive, co-exclusive, or partially exclusive patent license in the United States to practice the inventions described and claimed in U.S. Patent No. 11,581,104 for an invention titled "Multi-layer Structure of Nuclear Thermionic Avalanche Cells" to Tamer Space, LLC having its principal place of business in 89 Sandy Bay Drive, Poquoson, VA 23662. The fields of use may be limited. NASA has not yet made a final determination to grant the requested license and may deny the requested license even if no objections are submitted within the comment period.

This notice of intent to grant an exclusive, co-exclusive or partially exclusive patent license is issued in accordance with 35 U.S.C. 209(e) and 37 CFR 404.7(a)(1)(i). The patent rights in these inventions have been assigned to the United States of America as represented by the Administrator of the National Aeronautics and Space Administration. The prospective license will comply with the requirements of 35 U.S.C. 209 and 37 CFR 404.7.

Information about other NASA inventions available for licensing can be found online at <http://technology.nasa.gov>.

## NATIONAL SCIENCE FOUNDATION

### Agency Information Collection Activities: Comment Request; Survey of Graduate Students and Postdoctorates in Science and Engineering

**AGENCY:** National Science Foundation.

**ACTION:** Submission for OMB Review; comment request.

**SUMMARY:** The National Science Foundation (NSF) has submitted the following request for revision of the approved collection of research and development data in accordance with the Paperwork Reduction Act of 1995. This is the second notice for public comment; the first was published in the **Federal Register** and no comments were received. NSF is forwarding the proposed renewal submission to the Office of Management and Budget (OMB) for clearance simultaneously with the publication of this second notice.

**DATES:** Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

**FOR FURTHER INFORMATION CONTACT:** Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 2415 Eisenhower Avenue, Alexandria, VA 22314; or send email to [splimpto@nsf.gov](mailto:splimpto@nsf.gov). Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-

8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including federal holidays).

**SUPPLEMENTARY INFORMATION:** NSF may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

**Title of Collection:** Survey of Graduate Students and Postdoctorates in Science and Engineering.

**OMB Control Number:** 3145-0062.

**Expiration Date of Current Approval:** August 31, 2023.

**Type of Request:** Intent to seek approval to extend an information collection for three years.

The Survey of Graduate Students and Postdoctorates in Science and Engineering (GSS), sponsored by the NCSES within NSF and the National Institutes of Health, is designed to comply with legislative mandates by providing information on the characteristics of academic graduate

enrollments in science, engineering, and health fields. This request to extend the information collection for three years is to cover the 2023, 2024, and 2025 GSS survey cycles. The information collected by the GSS is solicited under the authority of the National Science Foundation Act of 1950, as amended and the America COMPETES Reauthorization Act of 2010. Data collection starts each fall in October and data are obtained primarily through a Web survey. Data are disseminated annually. All information will be used for statistical purposes only.

Participation in the survey is voluntary. To improve coverage of postdocs, the GSS periodically collects information on postdocs employed in Federally Funded Research and Development Centers (FFRDCs). This survey of postdocs at FFRDCs will be conducted as part of the 2023 and 2025 GSS survey cycles.

Additional details regarding this survey are provided in an earlier **Federal Register** Notice, at 88 FR 10386.

**Use of the Information:** The GSS data are routinely provided to Congress, other parts of NSF, other Federal agencies, the GSS institutions

themselves, and several professional societies. In addition, the National Institutes of Health (NIH) publish GSS data annually in the NIH Data Book <https://report.nih.gov/nihdatabook/>.

**Expected Respondents:** The GSS is an annual census of all eligible academic institutions in the U.S. with graduate programs in science, engineering, and health fields. The response rate is calculated based on the number of reporting units (departments, programs, research centers, and health care facilities) that respond to the survey. For reference, in 2021, the GSS population was 21,365 units reported from 787 schools at 699 academic institutions. Based on recent cycles NCSES expects the annual response rate to be around 96 percent.

**Estimate of Burden:** The total estimated respondent burden of the GSS, including 2,000 hours for potential methodological studies to improve the survey procedures, will be 60,367 hours over the three-cycle survey clearance period. NCSES may review and revise this burden estimate based on completion time data collected during the 2022 GSS survey cycle, which is ongoing.

TABLE 1—GSS ESTIMATED RESPONSE BURDEN

Category	Respondents (number of school coordinators)	Total burden (hours)
Total burden for 2023:		
GSS institutions .....	919	19,442
FFRDCs .....	876	19,352
Total burden for 2024 .....	43	90
Total burden for 2025:	881	19,396
GSS institutions .....	929	19,529
FFRDCs .....	886	19,439
Potential future methodological studies (across all 3 survey cycles) .....	43	90
		2,000
Total estimated burden .....	2,729	60,367
Estimated average annual burden .....	910	20,123

**Comments:** As required by 5 CFR 1320.8(d), comments on the information collection activities as part of this study were solicited through publication of a 60-Day Notice in the **Federal Register** on February 17, 2023, at 88 FR 10386. NCSES received no comments.

Dated: July 27, 2023.

**Suzanne H. Plimpton,**

Reports Clearance Officer, National Science Foundation.

## NEIGHBORHOOD REINVESTMENT CORPORATION

### Sunshine Act Meetings; Special Audit Committee Meeting

**TIME AND DATE:** 11:00 a.m., Thursday, August 3, 2023.

**PLACE:** Via ZOOM.

**STATUS:** Parts of this meeting will be open to the public. The rest of the meeting will be closed to the public.

**MATTERS TO BE CONSIDERED:** Audit Committee Meeting.

The General Counsel of the Corporation has certified that in his opinion, one or more of the exemptions

set forth in the Government in the Sunshine Act, 5 U.S.C. 552b (c)(2) and (4) permit closure of the following portion(s) of this meeting:

- Executive Session

### Agenda

I. Call to Order

II. Approval Government in Sunshine Act Notice to Waiver for a Meeting of the Audit Committee of the Board of Directors

III. Sunshine Act Approval of Executive (Closed) Session; Executive (Closed) Session

IV. External Auditor Discussion/Review
