

Inn Express on July 7, 2009. All public materials presented at the open house were made available in English and Spanish. The purpose of the open house was to present information about the project and to receive input from the public regarding concerns or issues with the existing condition of the Otay Mesa LPOE and the proposed action. The public was also provided the opportunity to comment on the project by means of a form provided with the fact sheet and at the open house, or electronically via the project e-mail address (GSAOtayMesa@parsons.com). Comments were accepted by any of the means described above through August 7, 2009.

Twenty-six individuals attended the open house (excluding GSA project and contractor staff—five individuals), with the majority of those attending associated with a federal, state, or local agency. Comments were provided during discussions about the project with GSA and contractor staff. Written comments were provided by three emails and one letter. These communications suggested that there is a high degree of controversy surrounding the underwriting of local infrastructure needs associated with the project. GSA has therefore decided to prepare an EIS per GSA NEPA Desk Guide (1999; Section 7.4):

Acquisition of space by Federal construction or lease construction, or expansion or improvement of an existing facility, where one or more of the following applies:

* * * *The proposed use will substantially increase the number of motor vehicles at the facility;*

* * * *There is evidence of current or potential community controversy about environmental justice or other environmental issues.*

Proposed Project: Survey of State Underage Drinking Prevention Policies and Practices—New

The *Sober Truth on Preventing Underage Drinking Act* (the "STOP Act")¹ states that the "Secretary [of Health and Human Services] shall * * * annually issue a report on each State's performance in enacting, enforcing, and creating laws, regulations, and programs to prevent or reduce underage drinking." The Secretary has delegated responsibility for this report to SAMHSA. Therefore,

¹ Public Law 109-422. It is assumed Congress intended to include the District of Columbia as part of the State Report.

SAMHSA is developing a *Survey of State Underage Drinking Prevention Policies and Practices* (the "State Survey") to provide input for an *Annual Report on State Underage Drinking Prevention and Enforcement Activities* (the "State Report").

The STOP Act also requires the Secretary to develop "a set of measures to be used in preparing the report on best practices" and to consider categories including but not limited to the following:

Category #1: Sixteen specific underage drinking laws/regulations enacted at the State level (e.g., laws prohibiting sales to minors; laws related to minors in possession of alcohol);

Category #2: Enforcement and educational programs to promote compliance with these laws/regulations;

Category #3: Programs targeted to youths, parents, and caregivers to deter underage drinking and the number of individuals served by these programs;

Category #4: The amount that each State invests, per youth capita, on the prevention of underage drinking broken into five categories: (a) Compliance check programs in retail outlets; (b) Checkpoints and saturation patrols that include the goal of reducing and deterring underage drinking; (c) Community-based, school-based, and higher-education-based programs to prevent underage drinking; (d) Underage drinking prevention programs that target youth within the juvenile justice and child welfare systems; and (e) Any other State efforts or programs that target underage drinking.

Congress' purpose in mandating the collection of data on State policies and programs through the *State Survey* is to provide policymakers and the public with currently unavailable but much needed information regarding State underage drinking prevention policies and programs. SAMHSA and other Federal agencies that have underage drinking prevention as part of their mandate will use the results of the *State Survey* to inform Federal programmatic priorities. The information gathered by the *State Survey* will also establish a resource for State agencies and the general public for assessing policies and programs in their own State and for becoming familiar with the programs, policies, and funding priorities of other States.

Because of the broad scope of data required by the STOP Act, SAMHSA will rely on existing data sources where possible to minimize the survey burden on the States. SAMHSA will employ data on State underage drinking policies from the National Institute of Alcohol Abuse and Alcoholism's Alcohol Policy
