Hardwood Lumber and Hardwood Plywood Promotion, Research and Information Order; Termination of Rulemaking Proceeding

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Termination of proceeding.

SUMMARY: This action terminates a rulemaking proceeding that proposed to establish a Hardwood Lumber and Hardwood Plywood Promotion, Research and Information Order (Order) under authority in the Commodity Promotion, Research and Information Act of 1996 (1996 Act). The Order was proposed by the proponent group, the Blue Ribbon Committee (BRC), and would have authorized a national research and promotion program for hardwood lumber and hardwood plywood. USDA issued a supplemental notice of proposed rulemaking in response to the extensive comments received. Based on comments received, outstanding substantive questions and significant proposed modifications from stakeholders, USDA is terminating the proceeding. Termination of this proceeding will remove ex parte communication prohibitions and allow USDA to engage fully with all interested parties to discuss and consider the evolving needs of the industry going forward.

DATES: This termination is made on October 29, 2015.

SUPPLEMENTARY INFORMATION: Prior documents in this proceeding include: A proposed rule published in the **Federal Register** on November 13, 2013 (78 FR 68298), which provided a 60-day comment period that ended on January 13, 2014. On January 16, 2014, a notice was published in the **Federal Register** that reopened and extended the comment period until February 18, 2014 (79 FR 2805). A supplemental notice of proposed rulemaking was published in the **Federal Register** on June 9, 2015 (80 FR 32493). On July 1, 2015, a notice was published in the **Federal Register** that extended the comment period until September 7, 2015 (80 FR 37555).

Preliminary Statement

In June 2011, USDA received a proposal for a national research and promotion program for hardwood lumber and hardwood plywood from the BRC. The BRC is a committee of 14 hardwood lumber and hardwood plywood industry leaders representing small and large manufacturers geographically distributed throughout the United States.

The BRC proposed a program that would be financed by an assessment on hardwood lumber and hardwood plywood manufacturers and administered by a board of industry members selected by the Secretary. The purpose of the program would be to strengthen the position of hardwood lumber and hardwood plywood in the marketplace and maintain and expand markets for hardwood lumber and hardwood plywood.

A proposed rule was published in the **Federal Register** on November 13, 2013, which provided a 60-day comment period that ended on January 13, 2014. On January 16, 2014, a notice was published in the **Federal Register** that reopened and extended the comment period until February 18, 2014. In response to the proposed rule, USDA received over 900 comments; a significant majority of the comments opposed the proposed program. In order to address the voluminous comments, USDA issued a supplemental notice of proposed rulemaking on June 9, 2015, which reopened the comment period only with respect to specific issues. The comment period was extended until September 7, 2015, by a notice in the

Federal Register on July 1, 2015. In response to the supplemental notice, USDA received over 300 comments; a majority of the comments continued to oppose the program. Based on all the comments received, outstanding substantive questions and significant proposed modifications to the proposed program from stakeholders, USDA is terminating the proceeding. This action also terminates the proposed rules on the referendum procedures.

Termination of this proceeding will remove ex parte communication prohibitions and allow USDA to engage fully with all interested parties to discuss and consider the evolving needs of the industry going forward. Based on the above, USDA is terminating this rulemaking proceeding.

Regulatory Flexibility Act and Paperwork Reduction Act

As part of the proceeding conducted for this rulemaking, the provisions of the Regulatory Flexibility Act (5 U.S.C. 601–612) and the Paperwork Reduction Act of 1955 (Pub. L. 104–13) were considered. Because this action terminates the underlying rulemaking proceeding, the economic conditions of small entities are not changed as a result of this action, nor have any compliance requirements changed. Also, this action does not provide for any new or changed reporting and recordkeeping requirements. Accordingly, all supporting forms for the proposed program will be withdrawn.

Termination of Proceeding

In view of the foregoing, it is hereby determined that the proceeding proposing a national research and promotion program for hardwood lumber and hardwood plywood should be and is hereby terminated.

SUPPLEMENTARY INFORMATION: The Regulatory Flexibility Act ("RFA"), codified at 5 U.S.C. 600-611, requires an agency to review its rules that have a significant economic impact upon a substantial number of small entities within ten years of the publication of such rules as final rules. 5 U.S.C. 610(a). The purpose of the review is "to determine whether such rules should be continued without change, or should be amended or rescinded . . . to minimize any significant economic impact of the rules upon a substantial number of such small entities." 5 U.S.C. 610(a). The RFA sets forth specific considerations that must be addressed in the review of each rule:

- The continued need for the rule;
- The nature of complaints or comments received concerning the rule from the public;
- The complexity of the rule;
- The extent to which the rule overlaps, duplicates or conflicts with other federal rules, and, to the extent feasible, with state and local governmental rules; and
- The length of time since the rule has been evaluated or the degree to which technology, economic conditions, or other factors have changed in the area affected by the rule. 5 U.S.C. 610(c).

The Securities and Exchange Commission, as a matter of policy, reviews all final rules that it published for notice and comment to assess not only their continued compliance with the RFA, but also to assess generally their continued utility. When the Commission implemented the Act in 1980, it stated that it "intend[ed] to conduct a broader review [than that required by the RFA], with a view to identifying those rules in need of modification or even rescission." Securities Act Release No. 6302 (Mar. 20, 1981), 46 FR 19251 (Mar. 30, 1981). The list below is therefore broader than that required by the RFA, and may include rules that do not have a significant economic impact on a substantial number of small entities.

Where the Commission has previously made a determination of a rule's impact on small businesses, the determination is noted on the list.

The Commission particularly solicits public comment on whether the rules listed below affect small businesses in new or different ways than when they were first adopted. The rules and forms listed below are scheduled for review by staff of the Commission during the next 12 months. The list includes 21 rules adopted by the Commission in 2004.
