

that signature authority remains as agreed to with the Deputy District Director.

During the audit, the audit team learned of two memos, dated October 2007, that delegated, for six Districts, the signature of individual Section 4(f) Evaluations to the Environmental Office Chiefs and the signature of EISs to the Environmental Division Chief or the District Director.

This delegation is inconsistent with the FHWA clarification letter. Additionally, Chapter 38 of the SER is inconsistent regarding this delegation of signature authority for Draft EISs, indicating two different delegation signature authorities, one to the Deputy District Director and one to the Deputy District Director for Environmental Planning, in the sections "Signature Authorities" and "Signature Protocols."

(D4) Assignment of Section 6002 Responsibility under the Pilot Program—Under MOU section 3.2.2, Caltrans is responsible for complying with the requirements of any applicable environmental law. Therefore, Caltrans is responsible for complying with SAFETEA-LU section 6002 (23 U.S.C. 139) which defines provisions of the environmental review process. The SAFETEA-LU section 6002(d)(23 U.S.C. 139(d)) states that a Federal lead agency for a highway project conducting a NEPA process under section 6002, in this case Caltrans, "shall identify, as early as practicable in the environmental review process for a project, any other Federal and non-Federal agencies that may have an interest in the project, and shall invite such agencies to become participating agencies in the environmental review process for the project."

In three of the six EIS project files reviewed, there were participating agency invitations sent out to only 5 to 10 agencies per project. For those projects, the audit team, thorough interviews and review of project files, learned that more local, State, Federal, or tribal governmental agencies, either may have or already had, expressed an interest in the project and were therefore required to be an invited participating agency.

The Caltrans' third self-assessment included a section on "Understanding of Section 6002 Requirements," and did not report any finding that requires a corrective action.

Based on its review of project files and interviews with Caltrans staff, the audit team finds Caltrans' compliance

with its Pilot Program responsibilities to be deficient with regard to the intent and requirements of SAFETEA-LU section 6002 regarding inviting participating agencies.

(D5) Corrective Action for Audit Deficiency—In three of the project files reviewed by the audit team that contained a class of action determination documentation, the class of action determination concurrence was issued the day before the third audit began, or actually, in two instances, the concurrence was issued during the audit. This is a failure to fully address the deficiency, "Environmental Document Process—Class of Action Determination," noted in the previous audit.
