

exclusions. Grant applications and related materials submitted by applicants pursuant to this guidance would become agency records and thus subject to the FOIA and to public release through individual FOIA requests. FRA also recognizes that certain information submitted in support of an application for funding in accordance with this guidance could be exempt from public release under FOIA as a result of the application of one of the FOIA exemptions, most particularly Exemption 4, which protects trade secrets and commercial or financial information obtained from a person that is privileged or confidential (5 U.S.C. 552(b)(4)). In the context of this grant program, commercial or financial information obtained from a person could be confidential if disclosure is likely to cause substantial harm to the competitive position of the person from whom the information was obtained (*see* National Parks & Conservation Ass'n v. Morton, 498 F.2d 765, 770 (DC Cir. 1974)). Entities seeking exempt treatment must provide a detailed statement supporting and justifying their request and should follow FRA's existing procedures for requesting confidential treatment in the railroad safety context found at 49 CFR 209.11. As noted in the Department's FOIA implementing regulation (49 CFR part 7), the burden is on the entity requesting confidential treatment to identify all information for which exempt treatment is sought and to persuade the agency that the information should not be disclosed (*see* 49 CFR 7.17). The final decision as to whether the information meets the standards of Exemption 4 rests with the FRA.

Appendix 3: Additional Information on Application Budgets

Applicants must present a detailed budget for the proposed project that includes both Federal funds and matching funds. Items of cost included in the budget must be reasonable, allocable and necessary for the project. At a minimum, the budget should separate total cost of the project into the following categories:

- **Personnel:** List each position by title and name of employee, if available, and show the annual salary rate and the percentage of time to be devoted to the project. Compensation paid for employees engaged in grant activities must be consistent with that paid for similar work within the applicant organization.
- **Fringe Benefits:** Fringe benefits should be based on actual known costs or an established formula. Fringe benefits are for personnel listed in the "Personnel" budget category and only for the percentage of time devoted to the project.
- **Travel:** Itemize travel expenses of project personnel by purpose (training, interviews, and meetings). Show the basis of computation (*e.g.*, X people to Y-day training at \$A airfare, \$B lodging, \$C subsistence).
- **Equipment:** List nonexpendable items that are to be purchased. Nonexpendable equipment is tangible property having a useful life of more than two years and an acquisition cost of \$5,000 or more per unit. (Note: Organization's own capitalization policy may be used for items costing less

than \$5,000.) Expendable items should be included either in the "Supplies" category or in the "Other" category. Applicants should analyze the cost benefits of purchasing versus leasing equipment, especially high cost items and those subject to rapid technical advances. Rented or leased equipment should be listed in the "Contractual" category. Explain how the equipment is necessary for the success of the project. Attach a narrative describing the procurement method to be used.

- **Supplies:** List items by type (office supplies, postage, training materials, copying paper, and expendable equipment items costing less than \$5,000) and show the basis for computation. (Note: Organization's own capitalization policy may be used for items costing less than \$5,000.) Generally, supplies include any materials that are expendable or consumed during the course of the project.

- **Consultants/Contracts:** Indicate whether applicant's written procurement policy (*see* 49 CFR 18.36) or the Federal Acquisition Regulations (FAR) are followed. **Consultant Fees:** For each consultant enter the name, if known, service to be provided, hourly or daily fee (8-hour day), and the estimated time on the project. **Consultant Expenses:** List all expenses to be paid from the grant to the individual consultants in addition to their fees (travel, meals, and lodging). **Contracts:** Provide a description of the product or service to be procured by contract and an estimate of the cost. Applicants are encouraged to promote free and open competition in awarding contracts. A separate justification must be provided for sole source contracts in excess of \$100,000.

- **Other:** List items (rent, reproduction, telephone, janitorial or security services) by major type and the basis of the computation. For example, provide the square footage and the cost per square foot for rent, or provide the monthly rental cost and how many months to rent.

- **Indirect Costs:** Indirect costs are allowed only if the applicant has a Federally approved indirect cost rate. A copy of the rate approval (a fully executed, negotiated agreement) must be attached. If the applicant does not have an approved rate, one can be requested by contacting the applicant's cognizant Federal agency, which will review all documentation and approve a rate for the applicant organization.

Surface Transportation Board

[STB Ex Parte No. 290 (Sub-No. 4)]

Railroad Cost Recovery Procedures—Productivity Adjustment

AGENCY: Surface Transportation Board.

ACTION: Adoption of a railroad cost recovery procedures productivity adjustment.

SUMMARY: By decision served on February 1, 2010, the Board proposed to adopt 1.010 (1.0% per year) as the 2008 productivity adjustment, as measured by the average change in railroad productivity for the years 2004 through 2008. The February 1, 2010 decision provided an opportunity to file comments regarding any perceived data and computational errors in the Board's

calculation. The Board's decision also stated that the proposed productivity adjustment would become effective on March 1, 2010, unless the Board issued a further order postponing the effective date.

On February 22, 2010, the Board received timely comments from the Western Coal Traffic League (WCTL) regarding the output index calculation for 2008. To allow for adequate consideration of WCTL's comments, the Board issued a decision on February 26, 2010, postponing the effective date of the 2008 productivity adjustment pending further order of the Board.

In its comments, WCTL questioned the 2008 output index as compared to the 2007 output index. In response to WCTL's comments, we reviewed the calculations for the output indices for both of those years. This review revealed the inadvertent use of masked revenues from the waybill records in both the 2007 and 2008 calculations, and the exclusion of certain waybill records in the 2007 calculations. Once these errors were discovered and corrected, we verified that the output index calculations for the entire 2004-2008 averaging period used unmasked revenues and did not improperly exclude waybill records.

Accordingly, for the corrected 2008 productivity adjustment, the Board's calculation of the output index for 2007 of 1.014 should be modified to 1.000, and the Board's calculation of the output index for 2008 of 0.967 should be modified to 0.990. As a result, the corrected 5-year geometric mean of the annual change in productivity for the 2004-2008 period is 1.012 (or 1.2% per year).

DATES: The productivity adjustment is effective on March 26, 2010.
