Abstract: The authority for the emergency planning and emergency release notification requirements is Sections 302, 303, and 304 of the Emergency Planning and Community Right-to-Know Act (EPCRA) 1986 (42 U.S.C. 11002, 11003, and 11004). EPCRA established broad emergency planning and facility reporting requirements. Section 302 requires facilities to notify their state emergency response commission (SERC) and the local emergency planning committee (LEPC) that the facility is subject to emergency planning. This activity completed soon after the law was passed. Only new facilities that may become subject to these requirements must notify the SERC and the LEPC. Currently covered facilities are required to notify the LEPC of any changes that occur at the facility which would be relevant to emergency planning. Section 303 requires the LEPC to prepare local emergency response plans for their planning district using the information provided by facilities under Section 302. LEPC may request any information from facilities necessary to develop emergency response plans. Emergency response plans were developed within few months after the law was passed.

LEPCs are required to review and update the plan at least annually or more frequently as changes occur in the community. Section 304 requires facilities to report to SERCs and LEPCs releases in excess of the reportable quantities listed for each extremely hazardous substance (EHS). This ICR also covers the notification and the written follow-up required under Section 304. The implementing regulations are codified in 40 CFR part 355. EPA does not expect any new facilities to come into compliance under Section 302 during this ICR period. This ICR only covers periodic reporting or updates of information submitted previously by existing facilities under Section 302.

Form Numbers: None.

Respondents/Affected Entities: Chemical manufacturers, non-chemical manufacturers, retailers, petroleum refineries, utilities.

Estimated Number of Respondents: 108,556.

Frequency of Response: On occasion.

Estimated Total Annual Hour Burden: 255,456 hours.

Estimated Total Annual Cost: \$9,113,389, includes \$68,820 annualized capital or O&M costs.

Changes in the Estimates: There is a decrease of 11,750 hours from the previous ICR due to the decrease in the number of release notifications to the National Response Center.
