We published a proposed rule to designate critical habitat for this species in the **Federal Register** of December 2, 2009. SUPPLEMENTARY INFORMATION: We published a proposed rule to designate critical habitat for the Cook Inlet beluga whale in the **Federal Register** of December 2, 2009 (74 FR 63080). We received several requests, including from the Alaska Congressional delegation, to extend the comment period to allow the public to provide input to the designation of critical habitat and, in particular, to comment on the economic report. The Alaska Congressional delegation asked for an additional 30 days; another commenter asked for an additional 60 days. An additional 30–day comment period should allow sufficient time for responders to comment while preserving the time needed for NMFS to prepare the final rule. The original due date for receipt of public comments was scheduled to end on February 1, 2010, and today we extend the public comment period to March 3, 2010.

Authority: 16 U.S.C. 1533 *et seq.*

Dated: January 6, 2010.

Assistant Administrator for Fisheries, National Marine Fisheries Service.
