

requirements have also been established for the manganese additive MMT manufactured by the Afton Chemical Corporation (formerly the Ethyl Corporation). Tier 3 provides for follow-up research, at EPA's discretion, when remaining uncertainties as to the significance of observed health effects, welfare effects, and/or emissions exposures from a fuel or fuel/additive mixture interfere with EPA's ability to make reasonable estimates of the potential risks posed by emissions from a fuel or additive. To date, EPA has not imposed any Tier 3 requirements. Under regulations promulgated pursuant to Section 211 of the Clean Air Act, (1) submission of the health-effects information is necessary for a manufacturer to obtain registration of a motor-vehicle gasoline, diesel fuel, or fuel additive, and thus be allowed to introduce that product into commerce, and (2) the information shall not be considered confidential.

Form Numbers: None.

Respondents/affected entities:

Manufacturers of motor-vehicle gasoline, motor-vehicle diesel fuel, and additives for those fuels.

Respondent's obligation to respond:

Mandatory per 40 CFR 79, subpart F.

Estimated number of respondents: 2.

Frequency of response: On occasion.

Total estimated burden: 35,200 hours per year. Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$3,697,000 per year, includes \$597,000 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is an increase of 17,600 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This increase is based on input from an industry representative who stated that their actual literature review and Tier 2/Alternative Tier 2 costs were double the EPA estimate.

Courtney Kerwin,

Director, Regulatory Support Division.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OECA-2012-0662; FRL-9998-10-OMS]

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NESHP for Gasoline Distribution Facilities (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency has submitted an information collection request (ICR), "NESHP for Gasoline Distribution Facilities (40 CFR part 63, subpart R) (Renewal)" (EPA ICR No. 1659.10, OMB Control No. 2060-0325), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*). This is a proposed extension of the ICR, which is currently approved through November 30, 2019. Public comments were previously requested, via the **Federal Register**, on May 6, 2019 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An Agency may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments on the information collection published May 6, 2016 at 84 FR 19777 may be submitted on or before October 28, 2019.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OECA-2012-0662, to: (1) EPA online using www.regulations.gov (our preferred method), or by email to docket.oeca@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460; and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change, including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT:

Patrick Yellin, Monitoring, Assistance, and Media Programs Division, Office of Compliance, Mail Code 2227A, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: (202) 564-2970; fax number: (202) 564-0050; email address: yellin.patrick@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov,

or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit: <http://www.epa.gov/dockets>.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHP) for Gasoline Distribution Facilities (40 CFR part 63, subpart R) apply to existing and new: (1) Bulk gasoline terminals with throughputs greater than 75,700 liters/day; and (2) pipeline breakout stations. New facilities include those that commenced construction or reconstruction after the date of proposal.

Owners and operators of affected facilities are required to comply with reporting and/or recordkeeping requirements for the NESHP General Provisions (40 CFR part 63, subpart A), as well as for the specific requirements at 40 CFR part 63, subpart R. This includes submitting initial notification reports, performance tests and periodic reports and results, maintaining records of the occurrence and duration of any startup, shutdown or malfunction in the operation of an affected facility or any period during which the monitoring system is inoperative, and submitting annual reports certifying area source status if an area source is within 50 percent of major source threshold criteria. These reports are used by EPA to determine compliance with the standards.

Form Numbers: None.

Respondents/affected entities:

Owners or operators of gasoline distribution facilities.

Respondent's obligation to respond:

Mandatory (40 CFR part 63, subpart R.).

Estimated number of respondents:

102 major source and 390 area sources (492 total).

Frequency of response: Annually, semiannually.

Total estimated burden: 15,900 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$2,160,000 (per year), which includes \$305,000 in annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: There is no change in burden hours in this ICR compared to the previous ICR. The regulations have not changed over the past three years and are not anticipated to change over the next three years. The growth rate for the industry is very low, negative or non-existent. The decrease in costs is due to an adjustment in the number of respondents with O&M costs. A re-examination of the rule and background documents indicates that

the monitoring requirements and associated O&M costs apply only to the 87 major source bulk gasoline terminals.

Courtney Kerwin,

Director, Regulatory Support Division.

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; EPA's ENERGY STAR Program in the Commercial and Industrial Sectors (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), EPA's ENERGY STAR Program in the Commercial and Industrial Sectors (EPA ICR Number 1772.08, OMB Control Number 2060–0347), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed revision of the ICR, which is currently approved through September 30, 2019. Public comments were previously requested via the **Federal Register** on December 13, 2018 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before October 28, 2019.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA–HQ–OAR–2006–0407, to (1) EPA online using www.regulations.gov (our preferred method), by email to a-and-r-docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460, and (2) OMB via email to oira_submission@omb.eop.gov. SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West Building, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202–566–1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: EPA created ENERGY STAR as a voluntary program to help businesses and individuals protect the environment through superior energy efficiency. The program focuses on reducing utility-generated emissions by reducing the demand for energy. In 1991, EPA launched the Green Lights Program to encourage corporations, state and local governments, colleges and universities, and other organizations to adopt energy-efficient lighting as a profitable means of preventing pollution and improving lighting quality. Since then, EPA has rolled Green Lights into ENERGY STAR and expanded ENERGY STAR to encompass organization-wide energy performance improvement, such as building technology upgrades, product purchasing initiatives, and employee training. At the same time, EPA has streamlined the reporting requirements of ENERGY STAR and focused on providing incentives for improvements (e.g., ENERGY STAR Awards Program).

To join ENERGY STAR, organizations are asked to complete a Partnership Agreement that establishes their commitment to energy efficiency. Partners agree to undertake efforts such as measuring, tracking, and benchmarking their organization's energy performance by using tools such as those offered by ENERGY STAR; developing and implementing a plan to improve energy performance in their facilities and operations by adopting a strategy provided by ENERGY STAR;

and educating staff and the public about their Partnership with ENERGY STAR, and highlighting achievements with the ENERGY STAR, where available. In addition, Partners and any other interested party can evaluate the efficiency of their buildings using EPA's online tools (e.g., Portfolio Manager) and apply for recognition.

Form numbers: 5900–19, 5900–22, 5900–89, 5900–195, 5900–197, 5900–198, 5900–262, 5900–263, 5900–264, 5900–265, 5900–382, 5900–383, 5900–387, 5900–436 and 5900–437.

Respondents/affected entities: EPA's ENERGY STAR Program in the Commercial and Industrial Sectors.

Respondent's obligation to respond: Voluntary.

Estimated number of respondents: 37,021 (total).

Frequency of response: One-time, annually, or on occasion.

Total estimated burden: 210,306 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$14,859,991 (per year), includes \$5,034,450 in annualized capital or operation & maintenance costs.

Changes in the estimates: There is a decrease of 43,778 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease is due in part to program enhancements and clarifications. The decrease is also due to EPA's adjustments to its burden estimates. For example, EPA adjusted its analysis of its online tool, Portfolio Manager, to reflect data indicating that, although use of the tool is increasing, users are spending less time per building benchmarked, on average, than in the past.

Courtney Kerwin,

Director, Collection Strategies Division.
