[Release No. 34-62534; File No. SR-Phlx-2010-95]

Self-Regulatory Organizations; Notice of Filing and Immediate Effectiveness of Proposed Rule Change by NASDAQ OMX PHLX, Inc. Relating to Order Re-Entry

July 20, 2010.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)¹ and Rule 19b-4 thereunder,² notice is hereby given that on July 12, 2010, NASDAQ OMX PHLX, Inc. (“Phlx” or the “Exchange”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. Phlx has designated the proposed rule change as constituting a rule change under Rule 19b-4(f)(5) under the Act,³ which renders the proposal effective upon filing with the Commission. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend Rules 1017, Openings in Options, and 1082, Firm Quotations, to reflect a system enhancement that automatically re-enters unexecuted contracts when, after trading at the Exchange and/or routing, there are contracts remaining from the initiating order.

The text of the proposed rule change is available on the Exchange’s Web site at <http://www.nasdaqtrader.com/micro.aspx?id=PHLXRulefilings>, at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of

the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to change the manner in which the PHLX XL[®] automated options trading system⁴ handles unexecuted contracts following: (1) The end of the opening process; and (2) the end of the “quote exhaust” and “market exhaust” auctions. This new feature further automates the order handling process, particularly at the opening of trading, for certain member organizations routing order flow to the Exchange. The new feature is optional and is available to any Exchange member upon request.

Currently, at the end of the opening process, the PHLX XL system cancels all unexecuted order interest priced through the opening price level, and sends a cancellation notice to the member that originally submitted the order. Similarly, at the end of the quote exhaust and market exhaust auctions, the PHLX XL system cancels unexecuted order volume that initiated such auction(s), and sends a cancellation notice to the member that originally submitted the order.

The instant proposal would modify the PHLX XL system and corresponding Exchange rules such that the PHLX XL system will, upon the written instruction of the member that initially submitted the order, re-submit unexecuted contracts following the opening process and following the quote exhaust and market exhaust auctions.⁵ A re-submitted order will be treated strictly as a new order, thus forgoing any time/price priority it may have had when initially entered by the member that originally submitted the order. Therefore, the time of receipt of the new order will be recorded as of the time it

⁴ This proposal refers to “PHLX XL” as the Exchange’s automated options trading system. In May 2009 the Exchange enhanced the system and adopted corresponding rules referring to the system as “Phlx XL II.” See Securities Exchange Act Release No. 59995 (May 28, 2009), 74 FR 26750 (June 3, 2009) (SR-Phlx-2009-32). The Exchange intends to submit a separate technical proposed rule change that would change all references to the system from “Phlx XL II” to “PHLX XL” for branding purposes.

⁵ The Exchange anticipates that a member’s single written instruction to re-submit unexecuted contracts would apply to all orders in specified options following the receipt of the written instruction by the Exchange. For purposes of this proposal, an e-mail message is sufficient to satisfy the written instruction requirement. The Exchange will publish an Options Trader Alert (“OTA”) on its Web site describing where and to whom such written instruction should be made.

is re-submitted. Cancellation notices under the proposal will be stopped by the system and will not reach the member that originally submitted the order.

2. Statutory Basis

The Exchange believes that its proposal is consistent with section 6(b) of the Act⁶ in general, and furthers the objectives of section 6 (b)(5) of the Act⁷ in particular, in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general to protect investors and the public interest. Specifically, the Exchange believes that the proposal benefits customers by improving market efficiency through the enhanced automation of the order entry process when a member has instructed the Exchange to automatically re-submit unexecuted contracts following routing to away markets.

B. Self-Regulatory Organization’s Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The proposed rule change effects a change in an existing order-entry or trading system of a self-regulatory organization that: (i) Does not significantly affect the protection of investors or the public interest; (ii) does not impose any significant burden on competition; and (iii) does not have the effect of limiting the access to or availability of the system. Therefore, the proposal is effective upon filing pursuant to section 19(b)(3)(A)⁸ of the Act and subparagraph (f)(5) of Rule 19b-4 thereunder.⁹

At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is

The text of these statements may be examined at the places specified in Item IV below. Nasdaq has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

Nasdaq proposes to make a clerical correction to the Nasdaq rulebook. Specifically, Nasdaq proposes to renumber Nasdaq Rule 7051 to Nasdaq Rule 7052. 2. Statutory Basis

The proposed rule change makes a minor clerical change to renumber an existing Nasdaq rule.

B. Self-Regulatory Organization's Statement on Burden on Competition

Nasdaq does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act, as amended.
