

such as firm or priority service,⁶⁵ or deemed regular shipper status.⁶⁶ The Commission's policies require that sufficient capacity be reserved for uncommitted shippers. This addresses the concern that the carrier is exercising market power by ensuring that shippers have an alternative to the terms the carrier is offering in a committed contract. Although each proposal is addressed based on the facts and circumstances presented,⁶⁷ Commission precedent and industry standards generally support a carrier reserving at least 10% of capacity for uncommitted shippers.⁶⁸ In particular, the Commission rejected a proposed prorationing policy where committed shippers would have access to 95% of the capacity as of the in-service date of the project, finding that such proposal "undermines the Commission's committed rate policy, which allocates a minimum 10 percent reservation of the pipeline's total capacity to uncommitted shippers to ensure reasonable access to the pipeline consistent with its common carrier obligation."⁶⁹ As with several of the other proposals discussed herein, these

policies apply to all committed shipper contracts, not just Affiliate Contracts. However, carriers seeking to implement contract rates and terms do not always discuss the prorationing policy in detail in their filings, such as where there is already a prorationing policy in the pipeline's tariff that applies to committed shipper contracts.

51. Accordingly, we propose that carriers proposing rates and terms pursuant to Affiliate Contracts fully explain any prorationing terms applicable to committed shippers and the committed volume levels to which these terms apply. We also propose that carriers explain how the prorationing terms are consistent with Commission policy and the pipeline's common carrier obligations and will ensure that any unaffiliated shippers that request transportation will have reasonable access to the pipeline as uncommitted shippers.

IV. Conclusion

52. We seek input on the above proposals or any other approaches for oil pipeline carriers to demonstrate that Affiliate Contracts are not the result of undue discrimination to exclude potential nonaffiliated committed shippers. We welcome comments on any other issues or factors related to these issues that the Commission should consider for inclusion in the policy statement.

V. Comment Procedures

53. The Commission invites comments on this proposed policy statement by December 14, 2020 and Reply Comments by January 28, 2020. Comments must refer to Docket No. PL21-1-000 and must include the commenter's name, the organization they represent, if applicable, and their address in their comments.

54. The Commission encourages comments to be filed electronically via the eFiling link on the Commission's website at <http://www.ferc.gov>. The Commission accepts most standard word processing formats. Documents created electronically using word processing software should be filed in native applications or print-to-PDF format and not in a scanned format. Commenters filing electronically do not need to make a paper filing.

55. Commenters that are not able to file comments electronically must send an original of their comments to: Federal Energy Regulatory Commission, Secretary of the Commission, 888 First Street NE, Washington, DC 20426.

56. All comments will be placed in the Commission's public files and may be viewed, printed, or downloaded

remotely as described in the Document Availability section below. Commenters on this proposal are not required to serve copies of their comments on other commenters.

SUPPLEMENTARY INFORMATION:

A. Purpose

The Federal Funding Accountability and Transparency Act (Pub. L. 109-282, as amended by section 6202(a) of Pub. L. 110-252), known as FFATA or the Transparency Act, requires information disclosure of entities receiving Federal financial assistance through Federal awards such as Federal contracts, sub-contracts, grants and sub-grants, FFATA 2(a), (2), (i), (ii). The system that collects this information is called the FFATA Sub-award Reporting System (FSRS, www.fsrs.gov). This information collection requires information necessary for prime awardee registration in FSRS to create a user log-in and enable sub-award reporting for their entity. To register in FSRS for a user log-in, an entity is required to provide their Data Universal Numbering System (DUNS) number. FSRS then pulls core data about the entity from their System for Award Management (SAM) registration to include the legal business name, physical address, mailing address
