#### SUPPLEMENTARY INFORMATION:

##### I. Background

On April 3, 2025, FAA published a request for comment titled “Request for Comment to Withhold Certain Aircraft Registration Information from Public Dissemination,” in the **Federal Register** (90 FR 14590). The request for comment sought public input on the following questions:

1. How often do people or organizations access or use registered owner information, and how is this information used?
2. What would be the impact on privacy, safety, commerce, and accessibility of information if the identified categories of registered owner information are removed from public availability?
3. How would the removal of such information affect the ability of stakeholders to perform necessary functions, such as maintenance, safety checks, and regulatory compliance?
4. How should FAA implement the removal of identified categories of registered owner information from public availability?

5. What would be the impact if the FAA removed such information for private aircraft owners categorically and permitted such owners to request copies of their information rather than removing such information only upon an individual request?

6. What additional aircraft registration data should be removed from FAA websites?

Since publication of the request for comment, FAA received a joint request from the General Aviation Manufacturers Association (GAMA), the International Aircraft Dealers Association (IADA), the National Air Transportation Association (NATA), the National Aircraft Finance Association (NAFA), the National Business Aviation Association (NBAA), and the Aircraft Title Lawyer & Title Company Coalition (ATLTCC), to extend the comment period by an additional thirty (30) days. These organizations requested more time to analyze any impacts, develop comments and recommendations, and coordinate those comments among their stakeholders.<sup>1</sup>

##### II. Reopening of Comment Period

FAA grants the commenters’ request for an extension of the comment period. FAA recognizes the importance of the request for comment and that an extension would help commenters craft complete and thoughtful responses. With this extension, the comment period will now close on June 4, 2025. This will provide the public with a total of sixty (60) days to conduct its review and submit comments to the docket.

FAA will not grant any additional requests to further extend the comment period for this request for comment.

NPRM Notice of proposed rulemaking  
§ Section  
U.S.C. United States Code

##### II. Background, Purpose, and Legal Basis

On September 17, 2024, an organization notified the Coast Guard that it will be conducting a swim within a 100-yard radius of the Mackinac Bridge from 7 a.m. to noon on July 26, 2025. Approximately 400 swimmers will swim from Mackinaw City to St. Ignace on the east side of the bridge. The Captain of the Port Sector Northern Great Lakes (COTP) has determined that potential hazards associated with the swim would be a safety concern for anyone within a 100-yard radius of the bridge.

The purpose of this rulemaking is to ensure the safety of vessels and the navigable waters within a 100-yard radius of the bridge before, during, and after the scheduled event. The Coast Guard is proposing this rulemaking under authority in 46 U.S.C. 70034.

##### III. Discussion of Proposed Rule

This rule establishes a safety zone from 7 a.m. until noon on July 26, 2025. The safety zone will cover all navigable waters within 100 yards of the Mackinac Bridge while swimmers are beneath it. The duration of the zone is intended to protect personnel and vessels in these navigable waters while swimmers are in the water. No vessel or person will be permitted to enter the safety zone without obtaining permission from the COTP or a designated representative. The regulatory text we are proposing appears at the end of this document.
