SUPPLEMENTARY INFORMATION:

Background

The regulations in 7 CFR chapter III are intended, among other things, to prevent the introduction or dissemination of plant pests and noxious weeds into or within the United States. Under the regulations, certain plants, fruits, vegetables, and other articles must be treated before they may be moved into the United States or interstate. The phytosanitary treatments regulations contained in part 305 of 7 CFR chapter III (referred to below as the regulations) set out standards for treatments required in parts 301, 318, and 319 of 7 CFR chapter III for fruits, vegetables, and other articles.

In § 305.2, paragraph (b) states that approved treatment schedules are set out in the Plant Protection and Quarantine (PPQ) Treatment Manual.^a Section 305.3 sets out a process for adding, revising, or removing treatment schedules in the PPQ Treatment Manual. In that section, paragraph (a) sets out the process for adding, revising, or removing treatment schedules when there is no immediate need to make a change. The circumstances in which an immediate need exists are described in § 305.3(b)(1).

In accordance with § 305.3(a)(1), we are providing notice that we have determined that it is necessary to revise treatment schedule T314-a, which provides a heat treatment schedule for ash logs, including firewood, and all hardwood firewood that are moved from emerald ash borer quarantined areas. We have also determined that it is necessary to retain the current T314-a as a general treatment for various wood pests (rather than just emerald ash borer); we would redesignate this treatment schedule as T314-c in the Treatment Manual.

The reasons for these changes are described in a treatment evaluation

document we have prepared to support this action. The treatment evaluation document may be viewed on the Regulations.gov Web site or in our reading room (see **ADDRESSES** above for instructions for accessing Regulations.gov and information on the location and hours of the reading room). You may request paper copies of the treatment evaluation document by calling or writing to the person listed under **FOR FURTHER INFORMATION CONTACT**. Please refer to the subject of the treatment evaluation document when requesting copies.

After reviewing the comments we receive, we will announce our decision regarding the changes to the Treatment Manual that are described in the treatment evaluation document in a subsequent notice. If our determination that it is necessary to revise T314-a and add a new T314-c remains unchanged following our consideration of the comments, then we will make available a new version of the PPQ Treatment Manual that reflects the revision of T314-a and the addition of T314-c.

Authority: 7 U.S.C. 7701-7772 and 7781-7786; 21 U.S.C. 136 and 136a; 7 CFR 2.22, 2.80, and 371.3.

Done in Washington, DC, this 18th day of August 2010.

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Alaska Region Amendment 80 Permits and Reports.

OMB Control Number: 0648-0565.

Form Number(s): NA.

Type of Request: Regular submission (extension of a currently approved information collection).

Number of Respondents: 38.

Average Hours per Response:

Applications for cooperative quota share, for cooperative and cooperative quota permit, and for limited access fishery permit, 2 hours; applications to transfer quota share and cooperative

quota, 2 hours; annual cooperative report, 25 hours; appeals, 4 hours.

Burden Hours: 155.

Needs and Uses: This request is for extension of a currently approved information collection. Amendment 80 to the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area (BSAI FMP), primarily allocates BSAI non-pollock trawl groundfish fisheries among fishing sectors and facilitates the formation of harvesting cooperatives in the head-and-gut trawl catcher/processor sector. Sector allocations and associated cooperatives allow participants to focus less on harvest rate maximization and more on optimizing their harvest. This, in turn, allows a reduction in unwanted incidental catch, improved retention, improved utilization, and improved economic health of the head-and-gut trawl catcher/processor sector. Amendment 80 established a limited access privilege program for the non-American Fisheries Act trawl catcher/processor sector.

The Amendment 80 permits and reports collection provides participants with a management system that allows for improved efficiency by providing an environment in which, revenues can be increased and operating costs can be reduced. Depending on the magnitude of these potential efficiency gains and the costs of bycatch reduction, increases in efficiency could be used to cover the costs of bycatch reduction measures or provide additional benefits to participants.

Licenses and vessels used to qualify for the Amendment 80 Program (either to be included in the non-AFA trawl catcher/processor sector or to be used in Amendment 80 cooperative formation) are restricted from being used outside of the Amendment 80 sector, except that any eligible vessel authorized to fish pollock under the AFA would still be authorized to fish under this statute.

Fishery participants that join a cooperative receive an exclusive harvest privilege not subject to harvest by other vessel operators; may consolidate fishing operations on a specific vessel or subset of vessels, thereby reducing monitoring and enforcement and other operational costs; and harvest fish in a more economically efficient and less wasteful manner.

Affected Public: Business or other for-profit organizations.

Frequency: Annually and on occasion.

Respondent's Obligation: Mandatory.

OMB Desk Officer: David Rostker, (202) 395-3897.

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: Bureau of Economic Analysis (BEA).

Title: Institutional Remittances to Foreign Countries.

OMB Control Number: 0608-0002.

Form Number(s): BE-40.

Type of Request: Regular submission.

Number of Respondents: 1,220.

Average Hours per Response: 1.5 hours quarterly for 103 respondents and 1.5 hours annually for 1,117 respondents.

Burden Hours: 2,294.

Needs and Uses: The Institutional Remittances to Foreign Countries Survey (Form BE-40) is used by The Bureau of Economic Analysis (BEA) for the compilation of the U.S. international transactions accounts (ITAs), which it publishes quarterly in news releases, on its Web site, and in its monthly journal, the *Survey of Current Business*. These accounts provide a statistical summary of all U.S. international transactions and, as such, are one of the major statistical products of BEA. In addition, they provide input into other U.S. economic measures and accounts, contributing particularly to the National Income and Product Accounts. The ITAs are used extensively by both government and private organizations for national and international economic policy formulation and for analytical purposes. The information collected in this survey is used to develop the

“private remittances” portion of the ITAs.

The survey requests information from U.S. religious, charitable, educational, scientific, and similar organizations on transfers to foreign residents and organizations and their expenditures in foreign countries. The information is collected quarterly from organizations remitting \$1 million or more each year, and annually for organizations remitting at least \$100,000 but less than \$1 million each year. Organizations with remittances of less than \$100,000 in the year covered by the report are exempt from reporting. The survey is voluntary.

Without this information, an integral component of the ITAs would be omitted. No other Government agency collects comprehensive quarterly/annual data on institutional remittances to foreign countries.

Affected Public: Not-for-profit institutions.

Frequency: Quarterly.

Respondent's Obligation: Voluntary.

OMB Desk Officer: Paul Bugg, (202) 395-3093.

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Licensing of Private Remote-Sensing Space Systems.

OMB Control Number: 0648-0174.

Form Number(s): None.

Type of Request: Regular submission (extension of a currently approved information collection).

Number of Respondents: 18.

Average Hours per Response: 40 hours for the submission of a license application; 10 hours for the submission of a data protection plan; 5 hours for the submission of a plan describing how the licensee will comply with data collection restrictions; 3 hours for the submission of an operations plan for restricting collection or dissemination of imagery of Israeli territory; 3 hours for submission of a data flow diagram; 2 hours for the submission of satellite sub-systems drawings; 3 hours for the submission of a final imaging system specifications document; 2 hours for the submission of a public summary for a licensed system; 2 hours for the submission of a preliminary design review; 2 hours for the submission of a critical design review; 1 hour for notification of a binding launch services contract; 1 hour for notification of completion of pre-ship review; 10 hours for the submission of a license amendment; 2 hours for the submission of a foreign agreement notification; 2 hours for the submission of spacecraft operational information submitted when a spacecraft becomes operational; 2 hours for notification of deviation in orbit or spacecraft disposition; 2 hours for notification of any operational deviation; 2 hours for notification of planned purges of information to the National Satellite Land Remote Sensing Data Archive; 3 hours for the submission of an operational quarterly report; 8 hours for an annual compliance audit; 10 hours for an annual operational audit; and 2 hours for notification of the demise of a system or a decision to discontinue system operations.

Burden Hours: 552.

Needs and Uses: NOAA has established requirements for the licensing of private operators of remote-sensing space systems. The information in applications and subsequent reports is needed to ensure compliance with the Land Remote-Sensing Policy Act of 1992 and with the national security and international obligations of the United States. The requirements are contained in 15 CFR Part 960.

Affected Public: Business or other for-profit organizations.

Frequency: Annually, quarterly and on occasion.

Respondent's Obligation: Mandatory.
